

AMF M.P.

MICROFIBRE

1- Description of material

A perspiration-absorbing microfibre with a very pleasant feel on bare feet.

With its attractive finish and durable surface, it is suitable for sporting applications.

2 - Technical information

AMF - Absorbing MicroFibre - is a microfibre with an unrivalled ability to absorb humidity. Its chemical composition containing polyamide and polyester makes it very hard-wearing while feeling comfortable with a high-quality appearance similar to leather.
