MEDICAL FOOT SOLUTIONS

INTERNATIONAL OFFER

podiatech.com

Happy feet,

happy people,

happy planet. 🌍

Experience & loyalty since 1975

Since it was established in 1975, the Sidas group has been working with foot professionals and helping to improve the techniques used throughout the industry to ensure the advancement of the profession.

From analysis to training, Sidas equips foot professionals with analysis and measurement tools, materials and concepts, techniques and equipment, and even offers training in material applications and the making of plantar orthotics.

Innovative, certified solutions that guarantee quality and reliability

The result of years of international experience in the medical and sports industries, the products developed by our R&D department are tailored to your technology and the needs of your patients.

Through its product traceability system and control procedures, Sidas guarantees quality and reliability. All Sidas solutions comply with European legislation and bear the "CE" mark.

Eco-designed headquarter

In 2009, the Sidas group moved to new headquarters in Voiron, Southeast France. Built with environmentally friendly materials according to a simple design, the Sidas offices reflect the group's commitment to the environment.

Maintaining firm ties in the country where it all started, with a production site located close to its headquarters, Sidas also has several production sites around Europe.

Shaping OPCT® S and SM

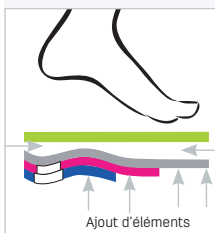

OPCT® S+

All parts of the OPCT® module are **assembled and heat-shaped** (base/middle layer/top layer).

Option to order certain* OPCT® products heat-shaped with a glued top layer, and to order products separately with no minimum quantity. From sizes 35 to 45. Delivery within 3 weeks. Contact us.

OPCT® SM+

The **top layer is separate from the rest** (base + middle layer), which is **heat-shaped**, making it possible to include supports and comfort elements right next to the foot.

services

CUSTOM CUT-OUTS OF MODULES, BASES, ELEMENTS, SHEETS AND STRIPS

PODIATECH can create special OPCT® modules and elements for practitioners using its high-precision cutting equipment. This facility making use of the very latest technology is managed by the Methods Department at the PODIATECH production site near Grenoble, France.

Cut-outs from our shapes

All the materials available in sheet form from PODIATECH can be supplied in the form of pre-cut modules based on our patterns.

Cut-outs from your shapes

We can create any form of special shape you need.

Contact us for details of minimum volumes and the process we use (technical documentation).

Customising your OPCT®

SPE

Choose the patterns and materials you want to create your special OPCT®s. We can supply them to you, subject to a minimum order of 30 pairs (mixed sizes possible). We can supply the models pre-moulded on a positive cast with met bar. For orders of 50 or more pairs, we can personalise your OPCT® modules with your four-colour logo.

Manufacture and delivery within 2 weeks guaranteed.

For all your special requirements, contact us.

Customising your bases

We can supply Men's and Ladies' archless bases:

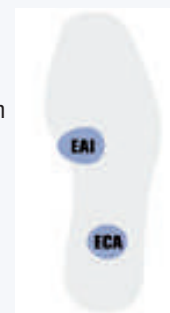

- in all the resins of the PODIATECH range (Podiaflex®, Podiaflux®, Podiaflex® on fabric 0.8 mm, 1.3 mm or 1.7 mm);
- in all thicknesses: 0.8 mm, 1.2 mm, 1.9 mm (for Podiaflex® resin) and 1 mm or 1.2 mm (for Podiaflux® resin);
- for all shoe sizes from 34 to 50;
- with the adhesive-coated top layer of your choice* (microfibres, woven textiles, nonwoven textiles);
- posture-stimulation elements cut from various resins, of different thicknesses, for use in postural examinations (pack of testers) and for making posture insoles.

Customising your elements*

We can cut out your own elements to your required shapes from an accurate technical drawing on graph paper.

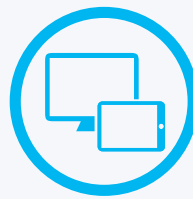

Your sales technician and trainer can provide details of the special procedure and minimum order number.

**Materials in the PODIATECH materials range.*

Scan

PODIATECH app

Create 3D scans of your patients' feet.

Use the Structure Sensor and an iPad to scan the vacuum bag imprints

or use the Structure Sensor and an iPad to scan your patient's feet (off load)

or use the Structure Sensor and an iPad to scan the imprint box prints

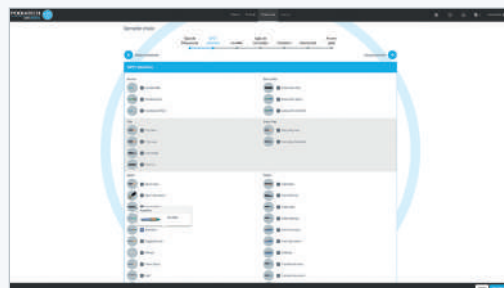

or use a flatbed scanner.

Use the app to digitally design and personalise your OPCT®.

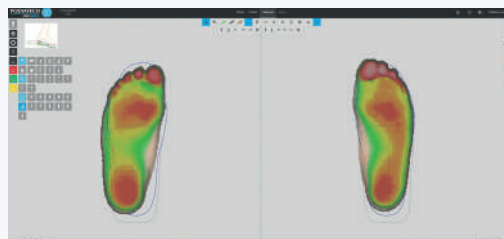

- Enter your patient information (patient data and clinical examination data).

- Choose the d'OPCT® model you want from our full range.

- Indicate which correction elements you want to add to your OPCT®. (Advanced and Elite levels only).

- Position and draw the corrective elements wherever you like. (Elite level).
- Simple, intuitive online software.
- Available for iPad and PC.
- Free to download (subject to conditions).
- Compatible with most existing scanning technology.
- Several personalisation levels available.

THE DIGITAL SOLUTION FOR YOUR THERMOFORMED CUSTOM FOOT ORTHOTICS —

SIDAS factory

Delivery

We will make your OPCT® to your specifications at our SIDAS Factory.

- Machining a positive cast* from a scan validated in the Podiatech app.

- Thermoforming the selected OPCT® on the positive cast*.

- Adding the required correction elements.

Your OPCT® are made by a foot-health professional.

* Our positive casts are machined from a recyclable material.

Watch our OPCT Factory tutorials on our YouTube channel:
PODIATECH medical foot solutions

We send your OPCT® directly to your clinic.

- Option to order the positive cast* used in the thermoforming process.

You receive your custom foot orthotics moulded, made to measure and with the required corrective elements.

You can modify and adapt the OPCT® received.

OPCT® Factory: what our customers say

By Marc Retali, specialist in sports podiatry, and Thomas Arnaud, foot health professional.

“ For me, OPCT FACTORY provides all the advantages of digital technology with none of the disadvantages!”

Used by

”

Additional business and time optimisation

« Beyond the limited investment in machinery required, one of the main advantages is optimising my square meterage and time. No longer having to keep a stock also means we save time, money and space! »

Thomas ARNAUD

Reproductibilité et base de données

« This service enables me to make my plantar orthotics using a fully featured app and means I can outsource production. »

Marc RETALI

« It has also enabled me to optimise and improve my services because it means I am now able to reproduce identical orthotics at a later date, making repeat orders child's play! »

Thomas ARNAUD

Fully featured app and patient satisfaction

« The plantar orthotics are made at the PODIATECH plant by professionals. So I can focus on clinical examination, saving athletes precious recovery time.

I keep a database of scans, which means I can create instant reproductions and send the orthotics all over the world and at any time of the season. »

Marc RETALI

« My long-standing patients say they can't tell any difference either. [...] And my patients like the fun, modern experience of using a tablet for their orthotics. »

Thomas ARNAUD

Limited investment and stock

« [...] a module of excellence is nothing without faultless moulding, which imposes particular logistical constraints: the constant transporting of equipment to make imprints and plantar orthotics. »

Marc RETALI

« With such a broad range of OPCT®s available, I can obtain an orthotic suitable for any type of activity without having to manage a vast stock. »

Thomas ARNAUD

The healthier option

« It enables me to spend more time with my patients and less time in the workshop, with all that glue and dust around... My lungs will thank me for it, too! »

Thomas ARNAUD

The advantages of OPCT®

« I've been a fan of the products in the Podiatech range for a few years now, and I know I can count on the quality of my finished products. »

Thomas ARNAUD

« PODIATECH offers a wide range of technical materials and pre-designed plantar orthotics tailored to all fitting rooms and activities. [...] Luckily for me, the brand works hard on continually adapting its products. »

ANALYSIS

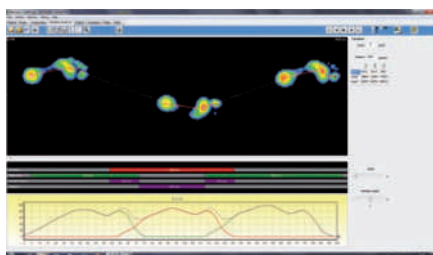

WIN-TRACK

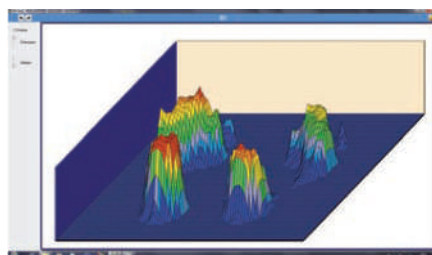

Win-Track: a foot pressure sensitive walkway dedicated to static, posturographic and gait analysis with total freedom in stance and motion acquisition.

WIN-TRACK - AMWINTRACK

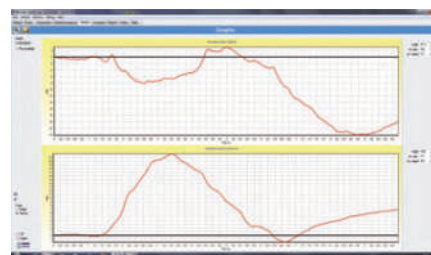

Dimensions (Length x Width x Height)	1610x652x30mm
Thickness	9mm
Sensing area	1500x500mm
Weight	11.8Kgs
Sensor technology	Resistive HD
Sensor's size	0.78x0.78cm
Number of sensors	12,288
Pressure range	From 0.4 to 100N
Temperature range	From 0°C to +85°C
PC/Platform interface	USB 2.0
Sampling rate	200Hz
Required operating system	Windows XP, Vista, Seven

Dynamic analysis

Static analysis

Postural analysis

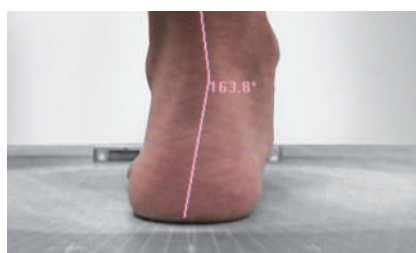

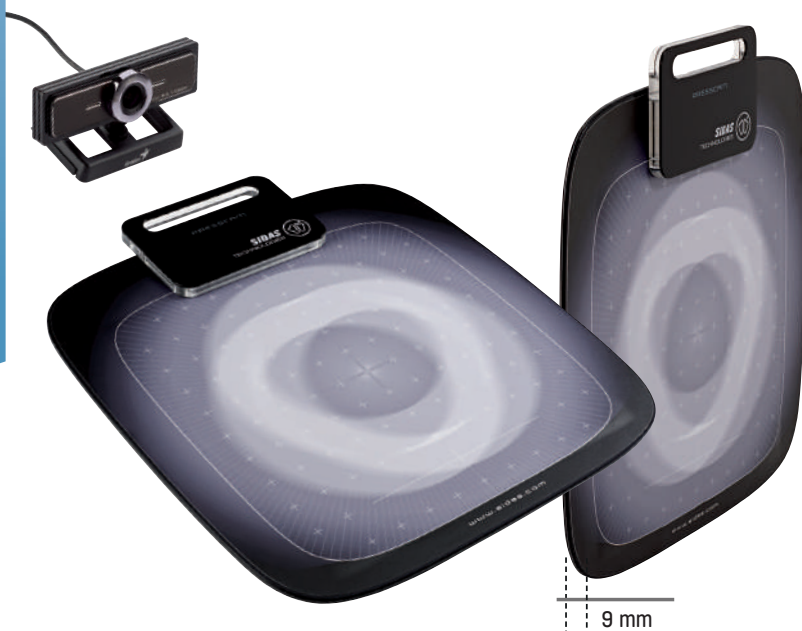

WIN-TRACK MINI

WIN-TRACK Mini is a compact walkway designed for dynamic podometric analysis that can also be used for static posturographic data acquisition with the subject in any stance.

WIN-TRACK MINI - AMWINTRACKM

Dimensions (Length x Width x Height)	1115 x 652 x 30 mm
Thickness	9mm
Sensing area	1000x500mm
Weight	8Kgs
Sensor technology	Resistive HD
Number of sensors	8192
Pressure range	From 0.4 to 100N
Temperature range	From 0°C to +85°C
PC/Platform interface	USB
Required operating system	Windows 7, 8, 10

(For Presscam Wifi only.)

PRESSCAM

Presscam is a hybrid pressure-posturology platform.
It is powered via a USB cable connected to a computer.

ADVANTAGES

- Clear, higher-resolution images and videos:
100 colour levels (compared to 20 in previous versions).
- Video connection with option to measure angles and lengths.

PRESSCAM PLATFORM - AMPRESSCAM5-0

- Dimensions (width/length): 550 x 661 mm
- Active surface area: 400 x 400 mm
- Base: 9 mm thickness
- Weight: 3 kg

UPDATES AND MAINTENANCE CONTRACT, 1 YEAR AMPRESSUP5-0

MAINTENANCE CONTRACT, 1 YEAR P52MAINTENAN

PRESSCAM CARRY CASE AMHOUSSE

PRESSCAM WIFI

New design featuring wireless connectivity

ADVANTAGES

- With wireless connectivity: can be used any time, anywhere
- Thin base: only 8 mm
- Mobility.

Technical information

The Presscam Wifi has the same technical characteristics and uses the same software as the Presscam.

- Presscam Wifi 150 Hz / Presscam 100 Hz

The Presscam WIFI package comprises the following:

- 1 Presscam Wifi platform
- 2 lithium-ion batteries
- 2 micro-USB cables for charging the batteries
- 1 x 220V / 5V mains adapter for recharging the batteries from the mains power supply
- 1 x 5-metre back-up USB cable
- 1 x Presscam software package on USB stick.

**PODIATECH
INNOVATION**

The new analysis tool that communicates with patients & medical professionals.

PRESSMAT™

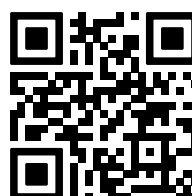

Instant, accurate analyses for STATIC, STATIC POSTURAL and DYNAMIC assessments.

- 1 intuitive dedicated app
- 1 Bluetooth connection to your Android tablet.
- Size of sensors: 2 mm x 2 mm
- Number of sensors: 64 x 64 = 4 096
- Type of sensor: resistive
- Frequency: 30 Hz (Bluetooth) - 100 Hz (USB)
- Active surface area: 445 mm x 445 mm
- Device footprint: 600 mm x 630 mm
- Weight: 1.7 kg
- Measurement from 0 to 40 N/cm²
- 5-hour battery life in operation

ADVANTAGES

- Flexible, light, easy to transport and washable
- Option to add notes to each analysis, which are automatically appended to the patient report
- Non-slip pads

INTELISOLE EASY

INTELISOLE Easy is used for investigating foot pressure distribution. It is your perfect partner for facilitating diagnosis, correcting and improving the gait of all kinds of patients, optimising athletic performance and measuring the effect of insoles in real conditions (at your practice and in the real world).

- Compact.
- 4 pairs of insoles and 8 separate sensors positioned in relevant zones (covering shoe sizes 35 to 46)
- CE-certified medical device
- Maximum pressure measured: 8 kg/cm²
- Bluetooth communication with PC and Android smartphone

Light, efficient control unit

- Acquisition at 100 Hz
- Automatic synchronisation of the 2 control units
- Fast USB charging (1 hr 30)
- Simple clip fastening to laces or strip

High-precision pressure sensors

- Insole with 8 ultra-hardwearing calibrated sensors
- Guaranteed for 1 million activations (validated on test bench)

INTELISOLE EASY - AMWINSHOE

Mirror in inclined position

Auto-detect activation

PLEXIGAS® PODOSCOPE WITH LEDS

- Automatic or manual illumination
- LED lights
- Choice of 3 light levels
- Universal remote control
- Height 125 mm
- Capacity 150 kg

PLEXIGLAS® PODOSCOPE WITH LEDS - APODOSIDAS_20

Warranty duration 2 years (use of alcohol-based products prohibited)

Height
2.25 m
Mirror amplitude
+/- 10 cm

POSTURSCOPE

Posture visualisation and analysis tool.

For use with a Podoscope or pressure platform for full analysis.

- Tilting mirror with return mark
- Plumb line
- Red background grid
- 4 independently adjustable feet

POSTUROSCOPE ONLY - AMPOSTURSCOP

Supplied in kit form

GRID BACKDROP

Backdrop featuring a grid for postural analyses.

Two eyelets for easy installation.

GRID BACKDROP - P80POSTPOSTURO

PODIATECH, the originator of thermoforming and sports podiatry

1984

**Thermopodoform:**

The first use of thermoforming in podiatry.

1987

**Podiaflex®:**

The first glue-free thermoformable material for insoles on the market.

1993

**Podolab®:**

Launch of a new thermoforming machine.

1997

**OPCT®:**

Innovation of the first module of pre-assembled and pre-cut materials.

2004

**UFSP:**

PODIATECH has been actively supporting the French Union for Foot Health (UFSP) since 2004.

2013

**Connaissance et Évolution:**

PODIATECH became a partner of this organisation, which promotes training, knowledge-sharing and development in podiatry.

2017

**Astana pro cycling team:**

PODIATECH began supporting these elite athletes, supplying them with plantar orthotics.

2020

**OPCT® Factory :**

Launch of a digital design and manufacture service for bespoke thermoformed plantar orthotics.

Built into the V-Lab

optional extras (see page 28)

Heating system:

Built-in thermostat and timer

Digital temperature and time display
Vacuum start
Temperature adjustment
Cycle start (count-down + heating)
Time adjustment

Heating surface:

350 mm x 275 mm

V-LAB - PGLVLABFUS

Includes packaging and shipment (by carrier)

Delivered with the following accessories:

- 1 Large Teflon protective sheet
- 1 OPCT® forefoot protector
- 1 Bottle of talc

3-year warranty* (does not include membrane)

*Provided use is in accordance with user instructions, machine guarantee excludes damage caused by the use of plaster positive casts.

V-LAB MEMBRANE - PZMAMEMB7

V-LAB COVER SEAL - CZMAJOINTMO11

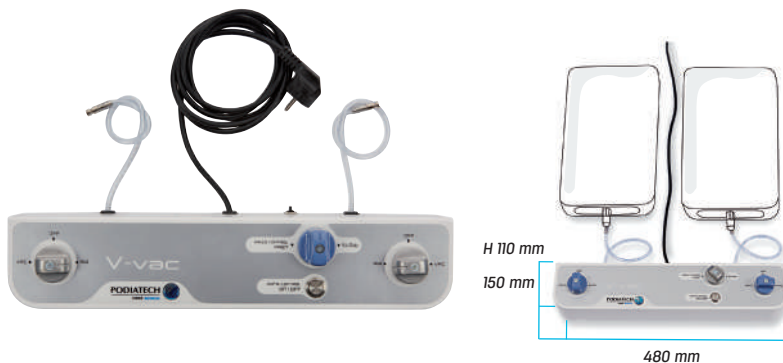

V-LAB works best when connected to the V-VAC

V-VAC

Separate control unit.

THERMOFORMING TECHNICAL ACCESSORIES

FOAM BASES

For making orthotics directly under the foot in the uncorrected position

For thermoforming plantar orthotics of any size

- Removable bottom and side inserts
- Two types of inserts can be used (hard or soft) depending on the patient's foot shape
- Integrated positioning markings

PAIR OF BLACK FOAM BASES - POPTMN20_NR_PACK

PAIR OF PROTECTIVE MEMBRANES - POPTMBKITMEN

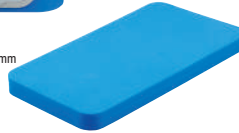

VACUUM BAGS

Vacuum bags 2.4 kg

30 mm

Silicon bag full of microballs.

For setting the foot in a corrected position

1 STANDARD 2.4 KG - POPESV17_24PBL

1 HARD 5 KG - POPESV17_50VBL

For setting the footprint without causing the bag to sag.

CONNECTING TUBE - POPTUBESV08

WEDGE - POPCALESV17

2-year warranty (does not include membrane)

YouTube

of our vacuum bag
moulding techniques

PRINTLAB® 2

For making orthotics directly on the foot, in a corrected position.

PEDAL (option) - CMAVAHD09PED

Vacuum-control pedal
for hands-free use.

Two separate silicon vacuum bags filled with microballs connected to a built-in vacuum pump with filter. It can be used to set each foot imprint separately and obtain better stability during insole moulding.

ADVANTAGES

- Ergonomic
- Portable, ideal for working on the road
- Bags made of soft silicone, a material very resistant to heat and ageing
- Extremely malleable

See dimensions page 24

PRINTLAB® 2 WITH STANDARD SILICON BAGS

PGNPRINTLB2 + POPESV17_24PBL

PRINTLAB® 2 WITH HARD SILICON BAGS

PGNPRINTLB2 + POPESV17_24PBL

Includes packaging and shipment (by carrier)

Delivered with the following accessories:

- 1 OK Net cleaning spray
- 1 Dismantling spanner
- 1 Bottle of talc

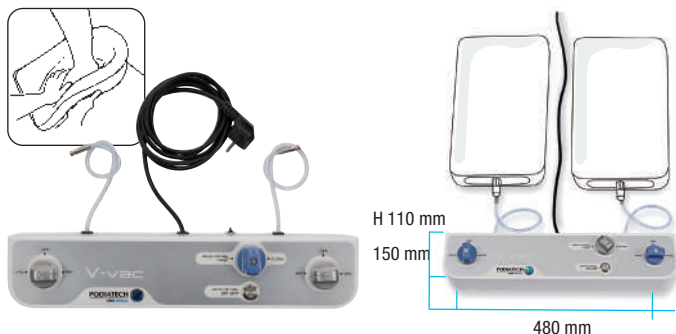

VACUUM SOCKS KIT

VACUUM SOCKS KIT - P99KITCHAUSSETTESV

1 roll of jersey cloth + 1 pack of 50 pairs of vacuum sock bags
+ 1 filter attachment + 1 power strap

V-VAC

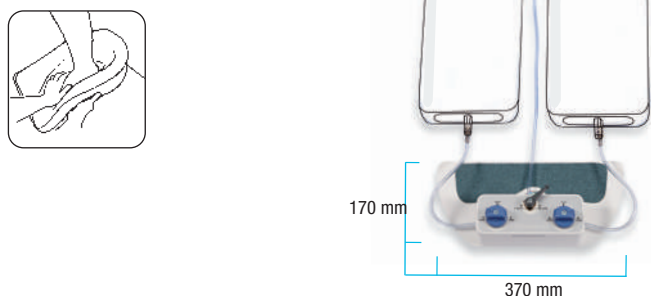

The V-Vac is a compact control unit with a built-in vacuum pump for use with Podiatech hard or standard vacuum bags separately from the heat sealer.

The advantage of the V-Vac is that it can be connected to one or two moulding bags and the vacuum can be applied to each bag independently through the use of two separate vacuum control valves.

V-VAC - PGNVVAC

3-year warranty* (does not include membrane)

V-CONTRÔL

The V-Contrôl is an ergonomic control unit for use with vacuum bags. Includes control of the following functions:

- 1/ applying vacuum
- 2/ releasing vacuum
- 3/ locking bag in off position
- 4/ boosting the vacuum control valves independently for each moulding bag. Also compatible with Grey vacuum bags.

V-CONTRÔL (sold separately without vacuum bags)
POPVCONTROL

V-CONTRÔL + 2 COUPLINGS for Grey vacuum bags
POPVCONTROL + POPTUBESV08

3-year warranty* (does not include membrane)

40% TIME SAVING
COOLING TIME

Economical and quiet high-performance cooling accessory.

- **Powerful:** fan flow rate 186 m3/h.
- **Economical:** consumes less than 5 W.
- **High-performance:** 30,000 hours of use.
- **Quiet operation:** 19 dB.

Characteristics:

- Powerful, high-performance fan quickly cools the heating film, heat-sealed insoles and postural insoles.
- Dimensions: 23 cm x 38 cm x 8 cm (l x d x h).
- Power supply: 100-240 V - 5 W - 50/60 Hz
- Weight: 1 kg.

COOLING SYSTEM - PGLCOOLSYSTEM

CABLE

COOLING SYSTEM CABLE (OPTIONAL) - CZMARAL3JACK
to connect two cooling systems on the same machine

COMPACT AND POWERFUL

HIGH TORQUE

BELT DRIVE

Streamlined grinder unit with built-in aspiration. Quiet operation 68 db (A), very powerful motor.

2 grinding stations:

> Station 1 on the right (when facing the grinder): manual self-locking chuck to which different grinder accessories can be fitted.

> Station 2 on the left (when facing the grinder): rubber expanding wheel, Ø 90 mm, 100 mm wide, designed to hold abrasive belts.

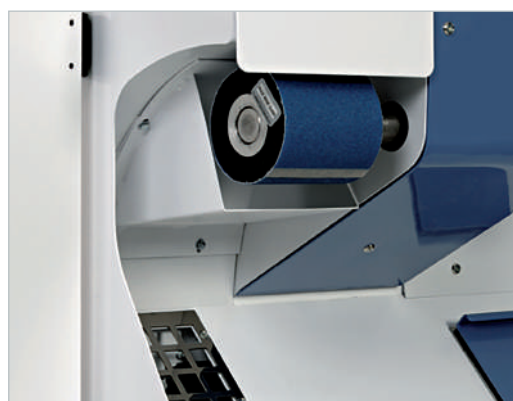

Advantages:

- grinding belts can be changed quickly and easily, no tools required.
- generous guard clearance enables operator to grind large sizes easily (removable side door).
- fitted with a professional aspiration turbine which directs dust into the collection drawer.
- easy maintenance: bagless design (collection drawer).
- mounted on self-locking castors.
- generous guard clearance.
- additional side power socket
- emergency stop button for safety.

MATERIALS IN SHEETS AND ROLLS

S Specialised materials, at the forefront of your profession.

The fruits of our research, these are pioneering products that will shape the future. They feature innovations and technological advances that are at the forefront of progress in your profession. They are available exclusively in the Podiatechange.

V Tried and tested materials that you can choose with complete confidence.

These materials have been around in modern podiatry for several years. Approved by thousands of users, they have become indisputable standards that you choose for their consistency and quality.

A Access materials, accessible quality.

Like access drugs, these are materials that have recognised qualities. They comply with every aspect of the Podiatech specifications but are still available at very keen prices for optimum value for money.

Microfibre

A very fine, elastic and supple material. Very hardwearing. Presents no exposed threads during finishing grinding.

Woven

Very good value for money. Hardwearing. Can reveal exposed fibres during finishing grinding.

Nonwoven

Highly resistant to mechanical stress. Low elasticity.

PE

A comfortable foam. High temperature resistance.

EVA

Very hardwearing and elastic. Heat-sensitive.

PE-EVA

Comfortable and hardwearing. Suitable for most uses.

T. 80°

MAXIMUM RECOMMENDED TEMPERATURE for thermoforming the material. Above this temperature, the material may deteriorate (both in appearance and properties).

Posture

POSTURE :
Material suitable for making postural orthotics.

SHORE A:

Shore is a measurement of the hardness of a foam. This hardness is directly related to comfort. Our technical and comfort materials have a shore A of 10 to 20. Our dynamic foams are 20 to 40, and for our correction and stabilising elements we have to use harder materials with a shore A of 40 to 70.

DENSITY:

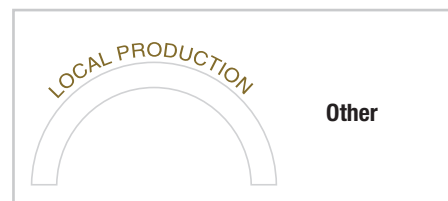

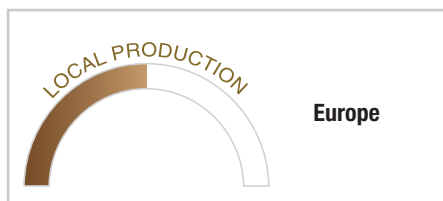

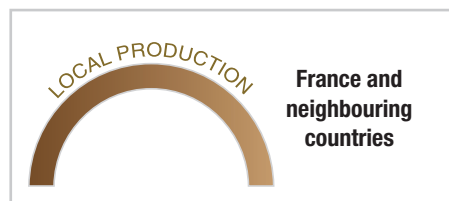

Stated as kg/m³. The denser a material, the more compact it is, so density has an effect on the lifespan of a material. Low density is between 40 and 100, medium density is between 100 and 250, and high density is between 250 and 800.

PODIATECH MATERIALS

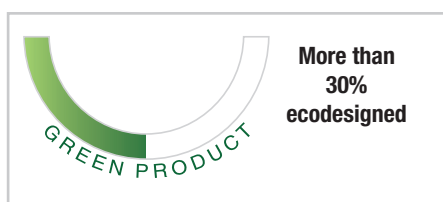

Eco-responsibility charter

For transparency, PODIATECH has classified its materials to indicate their level of eco-responsibility.

LOCAL: place where the material is made.

GREEN PRODUCT: analysis of all of the manufacturing processes and components of the material. Provides an overview of the product's environmental credentials (biosourced, recyclable, biodegradable, biocomponents, etc.).

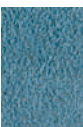

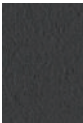

SPOTLIGHT: OUR ECO MATERIALS

NEW

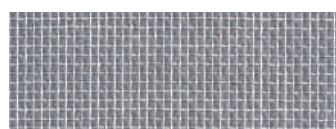

With the support of our research and development team, PODIATECH is today committed to developing the cleanest possible range of materials for making orthotics.

Resin with high PVC content.
The ultimate polyester resin thanks to the quality of its PVC content, which gives it a high forming quality and a rigidity that make it essential in modern podiatry. A firm favourite for 25 years thanks to its qualities of robustness and flexibility.

TECHNICAL MATERIALS

Filter

Absorbs impacts, preventing the propagation of vibrations.

Polyurethane PU

Light, hardwearing and comfortable.

Propulsive

Restores the energy stored up by the body, providing a feeling of propulsion.

Elastomer

Very hardwearing.

Active padding

For use with a normal to fast forward flex movement.

PVC

Comfortable.

Passive padding

For use with a slow forward flex movement.

NOENE®

1 mm or 1 mm NWF
2 mm or 2 mm NWF
4 mm or 4 mm NWF

Modulo Concept

This new way of presenting materials allows you to make your foot orthotics with a minimum of time spent in your workshop while keeping control of your patterns.

- Less storage and gluing
- Easy to use (rolls or strips)

Bonus: your template

This universal template allows you to cut the modulo plates in three patterns by size:

- Narrow template
- Standard template
- Wide template

MODULO - INTERLAYER

MIDDLE FOAM TAPES

The intermediate strips in rolls respect the different needs of the rearfoot, midfoot and forefoot.

A real innovation that allows you to make your orthotics independently of the reason of consultation or the volume of the patient's footwear.

Available in 3 different heights depending on the size:

- 35/39: 280 mm
- 40/44: 310 mm
- 45/48: 335 mm

OPCT® – an innovative concept created by PODIATECH

Options to suit the way you work. Each OPCT® comprises several layers: top layer + primary layer + base + reinforcements. PODIATECH makes different versions of the OPCT® – S, SM, O and OM – to match the level of customisability the practitioner wants to offer his patients and the amount of time he is prepared to spend in the workshop.

- For maximum time saving, choose this 'readyassembled' option.

OPCT® S

Top layer + base + mid layer assembled. Corrective elements underneath only.

- For maximum manufacturing time saving with the ability to select the pattern, a 3/4 base, the arch height and the position of the added elements..

OPCT® O

Top layer + mid layer assembled. Base separate from the assembly.

- For maximum time saving coupled with more customisability, choose this option with separate top layer.

OPCT® SM

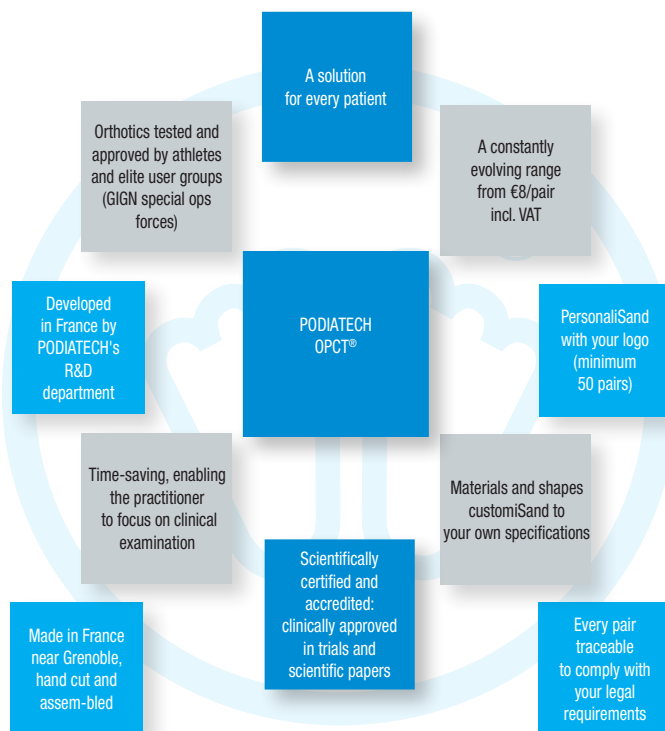

The top layer is separate, making it possible to include supports and comfort elements right next to the foot.

OPCT® OM

The top layer + mid layer + base are all separate from each other, making it possible to include supports and comfort elements right next to.

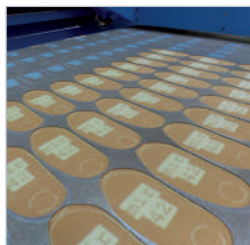

A thermowelding stage is required. The pattern used for the base is wider than for the S versions, enabling the professional to adapt the pattern.

Sold in packs of 5 pairs

3Feet® PATHO-LOGIC®

The first orthopaedic insole that can be customised to incorporate high-quality SIDAS materials in just 5 minutes.

Treat the main pathologies found in your patients by customising your insoles with forefoot, mid-foot and hindfoot elements.

ORTHOTIC-KITS™ NEUTRE

Orthotic-kits™ Neutre is your basic insole kit, ready for customising. It comprises a pair of 3Feet PATHO-LOGIC® insoles, a technical top layer, plus forefoot and hindfoot elements of the same density as the insoles.

The Orthotic-kits™ Neutre is available in a High, Mid and Low version, in the following sizes: XS, S, M, L, XL.

ORTHOTIC-KITS™ NEUTRE HIGH

P24PATH_NEU_HI

ORTHOTIC-KITS™ NEUTRE MID

P24PATH_NEU_MI

ORTHOTIC-KITS™ NEUTRE LOW

P24PATH_NEU_LO

ADDITIONAL ELEMENTS

Our range of elements is designed to treat the main pathologies found in your patients and to satisfy customers who are looking for comfort and stability or to improve their sporting performance.

Depending on the needs of your patient, you can customise each insole with forefoot, mid-foot and hindfoot elements.

Each element is pre-glued and has its own easy-to-find location marked out on the insole.

FOOT & SHOES ACCESSORIES

CREAMS

Sidas has begun a new venture, launching a brand-new range of sports creams.

These creams containing superior-quality natural ingredients are designed for outdoor sports including running, hiking and trail running.

Anti-rubbing and anti-blister cream.

Protects, moisturises and revitalises.

This cream has a protecting action, forming a film that boosts the skin's elasticity and defensive ability.

Apply before sport by rubbing it in at length to areas prone to friction: feet, thighs, arm pits, nipples, etc.

ANTI-FRICTION CREAM 75 ML

CFCCREANTIF17_75ML

- pack of 15 or singly

COMPOSITION

- Shea butter, marine collagen, vitamin E, witch hazel extracts
- Does not contain parabens or PEG, contains natural preservatives. Not tested on animals.
- 99% natural ingredients

Provides rapid relief from injury: strained muscles, impact injuries, cramp, dislocations and bruising.

The silicon and targeted essential oils act in synergy to produce a three-fold effect: relaxing, stress-relieving and repairing.

Apply locally as soon as possible after injury. Repeat application as necessary.

RECOVERY CRYO GEL 75 ML

CFCCRECOV17_75ML

- pack of 15 or singly

COMPOSITION

- Organic silicon and essential oils (mint, peppermint, eucalyptus, rosemary, tea tree)
- 77% natural ingredients

FOOT PROTECTIONS

These gel heel pads absorb shocks all day long for optimum comfort. They are easy to fit and will quickly become an essential part of your daily life.

These gel bone spur pads relieve pain affecting the heels specifically. They also absorb shocks all day long for optimum comfort. They are easy to fit and will quickly become an essential part of your daily life.

These wrap-around gel heel cups absorb shocks all day long for optimum comfort. Specially shaped to fit round the heel, they prevent blisters and stabilise your feet, enabling you to enjoy your day or sporting activity to the full.

Hanging display for the In-Shoe Pads range.

Available separately or to complement the main display.

- French and English
- Dimensions: 20 cm wide x 87 cm high
- 5 display prongs per column, accommodates a total of 10 products

FOOT PROTECTIONS

Sidas markets these protective devices to ease pain arising from different sporting activities. These products are applied directly onto the skin to protect the wearer from blisters, runner's toenail and chafing.

These gel toe caps enable you to enjoy your sporting activity to the full. Used preventively, they prevent the onset of runner's toenail caused by shocks inside the footwear. If pain is already present, they provide immediate relief by absorbing shocks.

Protective caps made of silicone, washable and reusable.

GEL TOE CAPS

ASKINGLTOECA17

- Sizes: XS (small toes) / S/M (36-40) / L/
- Pack: 1 pair
- Adjustable length
- Available singly or in a box of 20

Sizes Tailles	Big Toe Gros orteil	Middle Toes Orteils moyens	Small Toes Petits orteils
36 - 39 (EU) 4 - 6 (US) 3 - 6 (UK)	S / M	XS	XS
40 - 46 (EU) 7.5 - 13 (US) 6.5 - 12 (UK)	L / XL	S / M	XS

These gel toe wraps enable you to enjoy your sporting activity to the full. They relieve pain caused by the toes rubbing together and prevent corns and calluses.

GEL TOE WRAPS

ASKINGLTOEWR17

- Sizes: S/M (36-40) / L/XL (41-47)
- Pack: Pack of 4
- Adjustable length
- Available singly or in a box of 20

These gel plantar protectors enable you to enjoy your sporting activity to the full. Used preventively, they prevent chafing, friction burns and blisters.

If pain is already present, they provide immediate relief by absorbing shocks.

GEL PLANTAR PROTECTORS

ASKINGLPLAPR17

- Sizes: S/M (36-40) / L/XL (41-47)
- Pack: 1 pair
- Anatomically constructed for the right and left feet
- Available singly or in a box of 20

Applying these Silitène™-T gel protectors to the toes as soon as rubbing is felt prevents the onset of blisters and relieves pain. Their biomechanical construction makes them light and almost imperceptible and they will remain in place for a very long time, enabling you to enjoy your activity to the full.

x5

TOE PROTECTORS V2

CFCOSTOEPROT20

- Thickness: 1 mm.
- Pack contents: 5 toe protectors

Applying this Silitène™-T gel foot protector to the area where chafing occurs as soon as the first rubbing is felt prevents the onset of blisters and relieves pain. Its biomechanical construction makes this foot protector light and almost imperceptible. It moves with the foot and will remain in place for a very long time, enabling you to enjoy your activity to the full.

x5

FOOT PROTECTOR V2

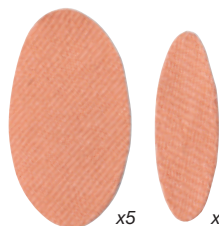

CFCOSFOOTPROT20

- Thickness: 1 mm
- Pack contents: 5 foot protectors

Silitene™-T protection kit, adapted to the anatomy of the toe and heel. The prevention kit Silitene™-T is the essential partner for your sporting activity.

Apply the pads to friction areas for immediate relief and comfort.

Their biomechanical construction follows the movement of the foot and allows a very long wear.

x5

x5

ESSENTIAL PROTECTOR KIT V2

CFCOESSSPROT20

- Thickness: 1 mm
- Pack contents: 5 x toe protectors / 5 x foot protectors

Sheet of Silitène™ to be cut and used as required.

Apply to the area where rubbing occurs as soon as the first hotness is felt.

You will forget you are wearing this light and almost imperceptible Silitène™ sheet, enabling you to enjoy your activity to the full.

We offer MORE

FOR DIMENSIONS SEE P.121

REUPHOSLTERY service on request, contact us.

Innovative patient chair with a highly original design based on two guiding principles: Sturdiness and Technical Innovation.

The base is fitted with a strong metal structure actioned by a telescopic column controlled by a cordless multifunction pedal.

The pedal features a programmable system for up to 3 positions, with automatic return to the starting position.

The upholstery includes 3 detachable padded sections for **easy cleaning and sanitation**.

Main features:

- Maximum working amplitude: 160 cm.
- Raising / lowering by electric actuator.
- Backwards tilting (**Trendelenburg position**) by electric actuator.
- Seat back reclining by electric actuator.
- All functions **memory-programmable** with automatic return at the end of treatment.
- Foldaway separate **armrests with skai® faux leather cover and positioning** at a set angle to the seat back (follows seat back when reclined).
- Leg rests are extendible and can be angled outwards by 90°.
- Chair **rotates**.
- **Cordless pedal** included as standard.

EDGE - PFP050

- 5-year warranty (does not include upholstery)

SELLING POINTS

- Electric base.
- Unrivalled **service life**.
- **Lifting capacity of more than 200 kg**, with constant force.
- Armrests fold back for **easy side accessibility**.
- Lowest position of 52 cm.
- Highest position at the end of the leg rests: 138 cm.
- **Headrest** included as standard.
- **Wide range of colours** available.

FOR DIMENSIONS SEE P.147

ÉLÉGANCE wood

1. Cabinet

Cabinet with wood finish, wood look or concrete look.

1 storage module

- 1 wooden **work surface** with accompanying separate adjustable Corian® tray.
- 4 **drawers** of different sizes with stainless-steel handles and assisted closing, each with different compartmentalised inserts.
- 1 **shelf unit** with glass shelf and light (optional) for keeping your essentials to hand while treating your patients.

1 technical module.

2. Ergonomics

- Retractable or hanging cords.
- Swivel **console** with auto-detect instrument rack.
- ON/OFF or variable control **pedal**.
- Membrane-covered **control keypad**.

Left-handed version: contact us.

3. Working technique

DRY

- 1 carbon brush **micromotor** without spray.
- 1 **handpiece**, without spray, EX6B NSK.
- 1 integrated **surgical Cattani suction pump** with a bacteriological filter and adapted tube.
- 1 ON/OFF **pedal**.
- Standard cabinet included as standard.

SPRAY

Dynamic instruments used for spray-technique treatments, comprising:

- 1 Bien Air MCX brushless **micromotor** with internal spray, E-type attachment, speed 1,000 to 40,000 rpm.
- 1 Bien Air micro-series **handpiece** with internal spray, E-type attachment.
- 1 Bien Air Black Pearl **turbine** with push-button system. Speed 310,000 rpm.
- 1 three-way **straight syringe**: air, water, mist.
- 1 ON/OFF **pedal**. Can be used with variable control pedal.
- Standard cabinet included as standard.

This module requires a compressor.

4. Options and accessories

- Mini-compressor **syringe kit**.
- Integrated **surgical suction pump** - For Cattani suction pump contact us.
- **Touch screen**.
- **Adapter + tray pack**.
- Selection of **lighting options** p.156-157.
- **Premium furniture**.

ÉLÉGANCE with hanging cords

- Unit supplied without options
- 2-year warranty (not incl. rotary instruments)
- Left-handed version: contact us

TREATMENT UNITS

Innovative Medical Solutions

INGENii

1. Cabinet

Epoxy powder painted steel cabinet. Corian® work surface. Fitted with 8 medical-grade casters with the 4 front casters lockable. Comprises 2 modules that can be connected, rotated or separated.

1 storage module

- 4 drawers.
- 1 Corian® shelf
- Courtesy light.

1 technical module (console and tray / suction pump / compressor / water reservoir).

FOR DIMENSIONS SEE P.147

2. Ergonomics

- Hanging cords.
- Comprising 2 cabinets: one technical compartment and one drawer section, which can be separated and rotated (0 to 30°).
- The 2 cabinets are joined by **electromagnets**.
- Push-pull opening.
- Rotating and tilting instrument rack.
- UV drawer with **LED light**.
- Console with **10-inch touch screen control panel** on a triple-jointed arm.
- Detachable tilting touch screen.
- All functions of the unit, chair and multimedia support functions can be **controlled from the touch screen**.
- Management system for **up to 5 users**.
- **Integrated diary function** that synchronises with Google Calendar.

Left-handed version: contact us.

3. Working technique

SPRAY

- 1 brushless **micromotor and handpiece** with internal spray and LED.
- 1 one-piece **brushless micromotor** with integrated suction system.
- 1 integrated **suction pump** with motor, collection tray.
- 1 three-way **syringe**.
- Integrated **compressor**.
- Control **pedal**.

4. Options and accessories

- Thalia turbine module and spray turbine.
- Bravia L turbine module and triple-spray LED turbine.
- Choice of **scialytic lamp**.

INGENii

- Unit supplied without options
- 2-year warranty (not incl. rotary instruments)

Availability: contact us

+ FITTED COMPARTMENTS

- 1 - Fitted compartments.
2 - Motorised arm raises the tray by 15 cm.

- 3 - Push-pull drawer with LED light - variable brightness. .
4 - Cabinets rotatable from 0° to 30°.

INTEGRATED UNIT

Custom treatment-unit arrangement solution tailored to your activity and your practice.

ADVICE AND ASSISTANCE

Contact your technical sales advisor.

S/he will assist you through each step, from choosing to configuring your treatment unit.

VIEW YOUR LAYOUT

With the 3D integration software developed by our Research and Development department, you can see your treatment unit 'installed' in your practice.

Choose your furniture and we will integrate the technology to fit your practice.

A custom solution for a unique treatment unit tailored to your preferred layout.

PLEASE NOTE

To ensure satisfactory kit integration, furniture must meet SIDAS specifications.

CONSULT US FOR AVAILABILITY IN YOUR COUNTRY.

TREATMENT UNIT INTEGRATION KIT

Working technique

DRY

- 1 carbon brush micromotor without spray.
- 1 handpiece, without spray, EX6B NSK.
- 1 integrated surgical Cattani suction pump with a bacteriological filter and adapted tube.
- 1 ON/OFF pedal.
- Offset arm.

SPRAY

Dynamic instruments used for spray-technique treatments, comprising:

- 1 Bien Air MCX brushless micromotor with internal spray, E-type attachment, speed 1,000 to 40,000 rpm.
- 1 Bien Air micro-series handpiece with internal spray, E-type attachment.
- 1 Bien Air Black Pearl turbine with push-button system. Speed 310,000 rpm.
- 1 three-way straight syringe: air, water, mist.
- 1 ON/OFF pedal.
- Offset arm.

This module requires a compressor.

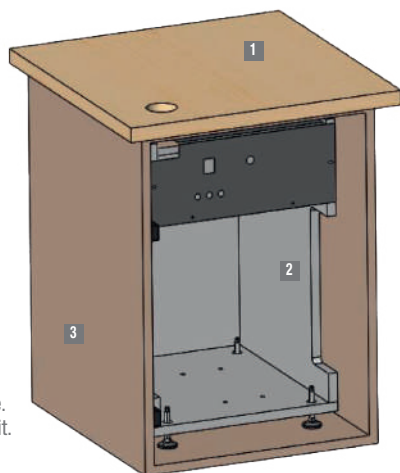

TREATMENT UNIT INTEGRATION KIT

Hanging cords with offset arm

- 2-year warranty (not incl. rotary instruments)

KART UK NANO

Innovative Medical Solutions

KART UK NANO

1. Nano version

2. Ergonomics

- Retractable or hanging cords.
- Swivel console with auto-detect instrument rack for 3 or 4 instruments (depending on customisation option).
- ON/OFF or variable control pedal.
- Membrane-covered control keypad.

3. Working technique

DRY

- 1 micromotor without spray.
- 1 handpiece, without spray, EX6B NSK.
- 1 Cattani surgical suction pump inside unit.
- 1 ON/OFF pedal.

SPRAY

Dynamic instruments used for spray-technique treatments, comprising:

- 1 Bien Air MCX brushless micromotor with internal spray, E-type attachment, speed 1,000 to 40,000 rpm.
- 1 Bien Air micro-series handpiece with internal spray, E-type attachment.
- 1 Bien Air Black Pearl turbine with push-button system. Speed 310,000 rpm.
- 1 three-way straight syringe: air, water, mist.
- 1 multifunction variable control pedal: operates the micromotor and turbine and activates the spray and chip-blower.

4. Options and accessories

- Selection of lighting options p.156-157.

KART UK SUCTION PUMP IN HOUSING - PASP006

TOUCH-SCREEN CONTROL PANEL (UNIT + CHAIR) PUS006

Three-setting rotation speed memory for each instrument plus chair controls when chair pedal is not used (depending on model).

ADAPTER AND EVO TRAY PACK - PUS037

KART UK spray technique

- Kart supplied without options
- 2-year warranty (not incl. rotary instruments)

MICROMOTORS WITHOUT SPRAY

MC2 GTAV CARBON BRUSH MICROMOTOR WITHOUT SPRAY - PMIC002

- BIEN AIR self-ventilated electric motor.
- Technology without spray with carbon brush.
- Maximum speed 40,000 rpm.
- Compatible with type-E handpiece
- 18-month parts and labour warranty
(does not include wearing parts).

Technical specifications:

- Speed: 60 to 40,000 rpm.
- Maximum power output: 74 W.
- Weight: 110 g.

VOLVER I7 MICROMOTOR WITHOUT SPRAY - PMIC036

- Carbon brush micromotor without spray.
- Cooling: self-ventilated.
- Maximum speed: 30,000 rpm.
- 12-month parts and labour warranty
(does not include wearing parts).

Technical specifications:

- Speed: 5,000 to 30,000 rpm.
- Weight: 192 g.

MXI INDUCTION MICROMOTOR WITHOUT SPRAY - PMIC015

- Electric induction micromotor without spray.
- Cooling: self-ventilated.
- Maximum speed: 40,000 rpm.
- E-type attachment in accordance with ISO 3964.
- Special cord coupling.
- 36-month parts and labour warranty
(does not include wearing parts).

Technical specifications:

- Speed: 5,000 to 40,000 rpm.
- Maximum power output: 140 W.
- Weight: 119 g.

CLEANING PRODUCTS AND ACCESSORIES FOR HANDPIECES AND TURBINES

1- STERISPRAY L2 500 ML - P70PI001

- Dilute to use: 10 ml to 1 l water.
- Bactericidal, virucidal, fungicidal, sporicidal.

2- LUBRIFLUID - PNIR001

- Lubricant spray, 500 ml.
- Sold singly.

3- BIEN AIR SPRAY NET CLEANER, 500 ML - PNIR003

4- NSK PANASPRAY, 500 ML - PNIR007N

5- LUBRIMED GREASE GUN - PNIR004

- Lubrication cartridges, sold in packs of 6.

6- LUBRIMED GREASE GUN - PNIR005

- Sold singly.

MICROMOTORS WITH SPRAY

AQUILON PNEUMATIC MICROMOTOR WITH SPRAY WITHOUT COUPLING - PMIC014

- Air micromotor with internal spray.
- Without light.
- Air-cooled.
- E-type attachment in accordance with ISO 3964.
- UNIFIX 4-way fast rotating coupling.
- 24-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 5,000 to 20,000 rpm, bidirectional.
- Maximum power output: 16 W.
- Weight: 90 g.

MC2 IR CARBON BRUSH MICROMOTOR WITH SPRAY - PMIC003

- Carbon brush technology.
- BIEN AIR electric motor with internal spray.
- Compatible with type-E handpiece (with internal spray).
- 18-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 60 to 40,000 rpm.
- Maximum power output: 55 W.
- Weight: 74 g.

TI-MAX M40 XS CARBON BRUSH MICROMOTOR WITH SPRAY WITHOUT LIGHT - PMIC028

- Carbon brush technology.
- Air-cooled.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 60 to 40,000 rpm.
- Weight: 97 g.

TI-MAX M40 CARBON BRUSH MICROMOTOR WITH SPRAY WITH LIGHT - PMIC031

- Carbon brush technology.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 60 to 40,000 rpm.
- Weight: 104 g.

MC2 GTIR CARBON BRUSH MICROMOTOR WITH SPRAY - PMIC013

- Carbon brush technology.
- BIEN AIR electric motor with internal spray.
- Air-cooled.
- 18-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 60 to 40,000 rpm.
- Maximum power output: 75 W.
- Weight: 75 g.

MXC INDUCTION MICROMOTOR WITH SPRAY - PMIC001

- Carbon-free technology requiring less maintenance.
- Electric motor with internal spray.
- Compact, light motor.
- Compatible with type-E handpiece (with internal spray) and Micro-Series.
- 36-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 1,000 to 40,000 rpm.
- Maximum power output: 110 W.
- Weight: 78 g.
- Dimensions in mm (dia. x L) : 21 x 42.
- Ball bearings: lifelong lubrication, maintenance-free.

MCX LED INDUCTION MICROMOTOR LED WITH SPRAY - PMIC024

- Carbon-free technology requiring less maintenance.
- Electric motor with internal spray.
- Compact, light motor.
- LED light.
- Compatible with E-type attachment in accordance with ISO 3964 and Micro-Series instruments.
- 36-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 1,000 to 40,000 rpm.
- Maximum power output: 110 W.
- Weight: 79 g.
- Dimensions in mm (dia. x L) : 21 x 42 mm.
- Ball bearings: lifelong lubrication, maintenance-free.
- LED light with adjustable brightness.

HANDPIECES

PODIATECH HANDPIECE WITHOUT SPRAY - PPMA005

Handpiece designed specifically for the 'dry' treatment technique

- Standard suction-pump-compatible model.
- Ring tightening system.
- Autoclave-compatible.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Transmission ratio 1:1 (direct).
- Weight: 87 g.
- Length: 95 mm.

M65 HANDPIECE WITH INTERNAL SPRAY - PPMA009

For right-handed operator

- Air-cooled.
- Maximum speed: 40,000 rpm.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Transmission ratio 1:1 (direct).
- Weight: 80 g.

HANDPIECE WITHOUT SPRAY - PPMA008

For right-handed operator - PAM EX6B without spray

- With ergonomic triangular holding ring.
- Robust and reliable.
- Clean head system.
- Autoclave-compatible at 134°C.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Transmission ratio 1:1 (direct).
- Weight: 54 g.
- Length: 86 mm.

HANDPIECE WITH SPRAY - PPMA001

For right-handed operator - PM 1:1 spray

- Model with internal spray.
- Ring tightening system.
- Robust and reliable.
- Stainless steel.
- Autoclave-compatible at 134°C.
- 24-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Weight: 80 g.
- Length: 85 mm.

MICRO-SERIES HANDPIECE WITH SPRAY FOR MCX - PPMA002

Micro-Series handpiece - PM 1:1 spray

- Model with internal spray.
- Compact and light.
- Stainless steel.
- Ring tightening system.
- Autoclave-compatible at 134°C.
- 24-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Transmission ratio 1:1 (direct).
- Weight: 70 g.
- Length: 75 mm.

TI-MAX X65L HANDPIECE WITH INTERNAL SPRAY AND LIGHT - PPMA007

Handpiece with light that will fit all types of micromotor with light and integrated spray.

- For right-handed operator.
- Features Simple Spray: powerful cooling effect.
- Titanium body (external part), light and very hardwearing.
- DURACOAT coating with the non-allergenic and biocompatible properties of titanium.

- Smooth, scratch-proof, comfortable surface.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Transmission ratio 1:1 (direct).
- Weight: 56 g.
- Length: 82 mm.

EVO SUCTION PUMP TUBE FOR HANDPIECE

PZUS1ADAPTCANULE_BTCT

TURBINES

BLACK PEARL TURBINE - PTUR002

- Single spray turbine.
- Separate air/water cooling.
- Push-button bur chuck (fast and user-friendly).
- Direct connection to 4-way tube.
- Autoclave-compatible at 134°C.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 310,000 rpm.
- Weight: 55 g.

PANA-MAX TURBINE - PTUR011

- Single spray turbine.
- Ceramic ball bearings for longer service life.
- Autoclave-compatible at 134°C.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 450,000 rpm.
- Weight: 46 g.

BORALINA TURBINE - PTUR009

- Single spray turbine.
- Separate air/water cooling.
- Push-button chuck (fast and user-friendly).
- Fast rotating connection to 4-way tube via Unifix coupling (not supplied).
- Autoclave-compatible at 134°C.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 310,000 rpm.
- Weight: 61 g.

UNIFIX 4V COUPLING WITHOUT LIGHT - PTUR005

BORA TURBINE - PTUR001

- Triple spray turbine.
- Separate air/water cooling.
- Push-button bur chuck with heat-guard technology.
- Fast connection to UNIFIX rotating coupling (not supplied)
- Ceramic ball bearings for longer service life.
- Autoclave-compatible at 134°C.
- 24-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 320,000 rpm.
- Weight: 75 g.

UNIFIX 4V COUPLING WITHOUT LIGHT - PTUR005

BORA LED TURBINE - PTUR010

- Triple spray turbine.
- Separate air/water cooling.
- Push-button bur chuck with heat-guard technology.
- Fast connection to UNIFIX rotating coupling (not supplied)
- Ceramic ball bearings for longer service life.
- LED light comprising single-piece optical glass bars.
- Autoclave-compatible at 134°C.
- 24-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Speed: 320,000 rpm.
- Weight: 75 g.

UNIFIX 4V COUPLING WITH LIGHT - PTUR004

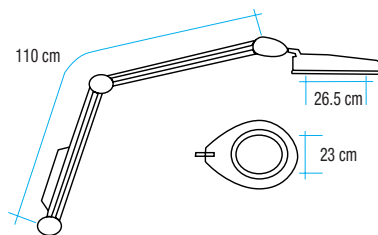

LIGHTING

STANDARD LED MAGNIFYING LAMP - PECI017

MAGNIFYING LAMP on double articulated arm.

- 22W circular fluorescent lamp with integrated magnifier.

- Articulated arms 50 cm + 60 cm = 110 cm
- Magnifier diameter Ø: 120 mm
- 4 dioptries

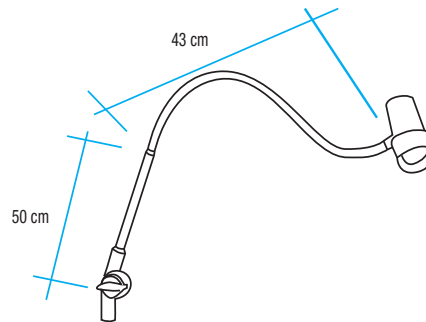

WALL BRACKET - PECI002

- 1-year warranty (does not include wearing parts)

HALUX N30 LED LAMP WITH FLEXIBLE ARM - PECI019

LED LAMP

- Lighting radius: 18 cm diameter.
- Light output: 30,000 lux at 0.5 m.
- Colour rendering index: CRI = 93.
- Dimming: continuously dimmable.
- Colour temperature: 4,400 °K.
- Power supply: external mains socket.
- Arm design: flexible arm, flexible arm with articulated bracket, spring-balanced arm.
- Attachment of head: from the rear or side.

Waldmann W
ENGINEER OF LIGHT.

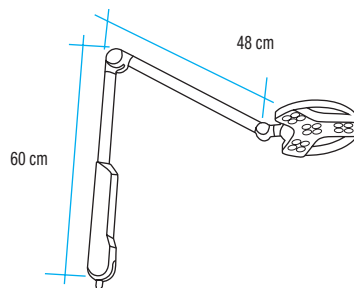

WALL BRACKET - PECI008

- 1-year warranty (does not include wearing parts)

VISANO LAMP

LED LAMP

- LED technology - Maintenance-free
- Adjustable head mounted on articulated double arm 600 mm + 480 mm.
- Light output: 60,000 lux at 0.5 m.
- Lighting radius: 210 mm.
- Colour rendering index > 95% of daylight.
- 2 light colours.
- 4 dimming settings.
- Control keypad on lamp head.

Waldmann W
ENGINEER OF LIGHT.

EXTERNAL CABLE PASSAGE - PECI021

INTEGRATED CABLE PASSAGE - PECI010

WALL BRACKET - PECI0011

- 1-year warranty (does not include wearing parts)

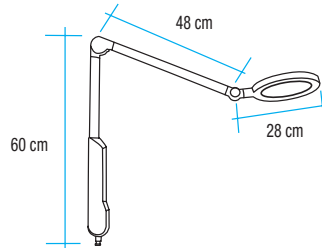

LIGHTING

OPTICLUX LED MAGNIFYING LAMP

PECI015

- Magnification x 1.9.
- The latest LED modules.
- Tried-and-tested ergonomic arm joints with intuitive positioning.
- Wide lighting radius with daylight-quality light - exceptional colour rendering.
- Long service life, maintenance-free.
- Approved for use as a medical product, meets standard EN 60601-1.

WALL BRACKET - PECI008

Waldmann W
ENGINEER OF LIGHT.

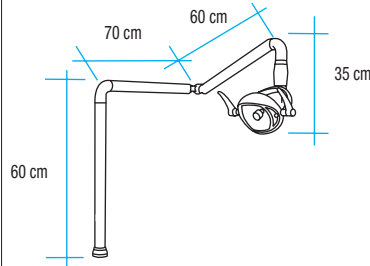

• 1-year warranty (does not include wearing parts)

COLUMN-MOUNTED SCIALYTIC LAMP

PECL004

- Very easy to position.
- Colour rendering index > 90.
- Perfect light distribution with a wide radius and cold white light up to 30,000 lux.
- Colour temperature = 5,000 °K (= daylight-quality light).
- Handle covers can be removed and cleaned for faultless hygiene.
- Column-mounted for fitting to our treatment units.
- Ceiling mount: contact us.

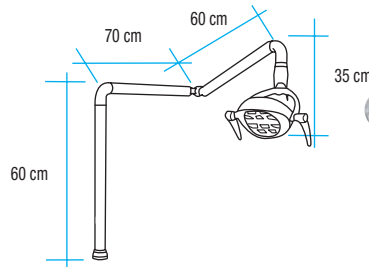

- Articulated arms 70 cm + 60 cm = 130 cm

WALL BRACKET FOR STANDARD SCIALYTIC LAMP - PECL004C

COLUMN-MOUNTED SCIALYTIC LED LAMP - PECL009

- Optimised for manoeuvrability.
- The specially shaped reflectors paired with each LED provide even, sharp and shadow-free lighting.
- This lamp features 2 potentiometers that can be used to adjust both the light intensity (from 8,000 lux to 35,000 lux) and the colour temperature (from 4,200 °K for better contrast when illuminating soft tissues to 5,800 °K for daylight-quality colour rendering) required to guard against eye strain.
- Colour rendering index > 90.
- Handle covers can be removed and cleaned for faultless hygiene.
- Column-mounted for fitting to our treatment units.
- Ceiling mount: contact us.

- Articulated arms 70 cm + 60 cm = 130 cm

HORIZONTAL ARM FOR SCIALYTIC LAMP COMPATIBLE WITH M2 EVO AND M3 PATIENT CHAIR (see p. 84 & 86) - PFP023

WALL BRACKET FOR SCIALYTIC LED LAMP
PECL009B

• 1-year warranty (does not include wearing parts)

LIGHTING ACCESSORIES

1- ADAPTER AND EVO TRAY PACK - PUS037

2- AXIAL SUPPORT AND TRAY PACK - PUS044

3- 2-ACCESSORY ADAPTER

(storage tray + lamp) - PUS020

4- HORIZONTAL LAMP ARM - 20 CM - PECL002

5- HORIZONTAL LAMP ARM - 35 CM - PECL003

6- S-SHAPED LAMP ARM - PECL007

COLUMN-MOUNTED S-SHAPED LAMP ARM

(see SIROCCO photo on page 136) - PECL015

COMPRESSORS

COMPRESSOR B 150/10 WITHOUT DRYER, WITH DRY-AIR AUTO PURGING - PCOM064G

Low-noise single-cylinder motorised oil-free dry-air compressor.

Technical specifications:

- Tank: 10 litres
- Automatic purging
- Maximum pressure: 8 bar
- Yield: 85 l/min at 5 bar
- Noise level 67 dB
- 230 V - 750 W - 50 Hz - 3.8 A
- Dimensions:
 - . width: 51.5 cm
 - . depth: 36.5 cm
 - . height: 36.5 cm
- Weight: 18 kg

CLINIC DRY 1.24 WITHOUT DRYER, WITH AUTOMATIC PURGING, DRY AIR - PCOMKIT006

Low-noise single-cylinder motorised oil-free dry-air compressor.
For regular use with turbine/syringe kit.

Technical specifications:

- Maximum pressure: 10 bar. 145 psi.
- Effective air yield at 5 bar: 72 l/min.
- Operating pressure: 5.5 to 7.5 bar.
- Tank capacity: 24 litres.
- Noise level 62 dB.
(-15 dB with optional soundproofing cabinet).
- Dimensions :
 - . width: 42 cm
 - . depth: 40 cm
 - . height: 71 cm.
- Weight: 30 kg
- 230 V - 750 W - 50 Hz - 3.8 A

• 3-year warranty (does not include wearing parts)

CLINIC DRY 3.25 WITH MEMBRANE DRYER, DRY AIR - PCOM059G

Twin-cylinder motorised oil-free dry-air compressor.

- Oil-free.
- Ultra-quiet operation.
- Constant pressure.
- Epoxy-lined tank.
- Hour meter.
- No purging required.

Technical specifications:

- Maximum pressure: 10 bar, 145 psi.
- Effective air yield at 5 bar: 150 l/min.
- Tank capacity: 24 litres.
- Noise level 64 dB. (-12 dB with optional soundproofing cabinet).
- Dimensions :
 - . largeur : 41.7 cm
 - . depth: 53.6 cm
 - . height: 83.5 cm.
- Power output: 1.8 kW

Technical data can be modified without notice.

• 3-year warranty (does not include wearing parts)

CLINIC DRY SOUNDPROOFING CABINET - PCOM060M

- External dimensions: 62 x 62 x 92.8 cm.
- Internal dimensions: 89.6 cm.
- Weight = 25 kg.
- Steel cabinet with acoustic-foam soundproofing lining.
- Fan starts up automatically when the compressor is switched on.
- Designed for easy purging.
- Noise reduction = 15 to 20 dB.

DRY AIR COMPRESSORS

NON-ENCLOSED SINGLE-CYLINDER DRY-AIR COMPRESSOR - PCOMKIT001

SINGLE-CYLINDER DRY-AIR MOTOR with dryer and automatic purging system with condensate tank.

- Hour meter.
- No purging required.
- 30-litre tank with internal food-grade resin lining.
- Maximum pressure: 8 bar.
- Effective air yield at 5 bar: 67.5 l/min.
- Operating pressure: 5.5 to 7.5 bar.
- Noise level 70 dB.
- Soundproofing cabinet: reduces compressor noise by approximately 20 dB.
- Weight: 36 kg
- 230 V - 550 W - 3.8 A

• 3-year warranty (does not include wearing parts)

SURGICAL ASPIRATORS

UNI-JET 75 MOTOR KIT - PASP001

ASPIRATION KIT: UNI-JET 75 motor - 75 m³/h + DUST COLLECTOR + BACTERIOLOGICAL FILTER

Operating head: 1500 mm water.

Comprises:

- 1 Uni-Jet 75 motor: length 232 mm, depth 246 mm, ht. 251 mm. 62 dB.
- 230 V - 400 W - 3.1 A
- 1 nail dust collector: length 185 mm, depth 125 mm, height 371 mm.
- 1 bag for the nail dust collector.
- 1 active-charcoal bacteriological filter: diam. 137 mm, height 225 mm.
- 1 set of tubes to connect the motor to the collector and filter.

Compatible with our treatment units.

Can also be installed in a separate cabinet (maximum distance 10 m).

UNI-JET 75 MOTOR IN MONO-LABOR HOUSING - PASP006

UNI-JET 75 MOTOR in metal housing, with switch and outlet for equipment connection tube.

Comprises:

- 1 Uni-Jet 75 motor.
- 1 nail dust collector.
- 1 bag for the nail dust collector.
- 1 set of tubes to connect the motor to the collector and filter.
- 58 dB
- 230 V - 400 W - 3.1 A

• 1-year warranty (does not include wearing parts)

BOWIE AND DICK TEST PACK - P72S010

For checking that your autoclave is performing optimally.

Sold singly.

PRION CYCLE TEST - P72S012

For checking the efficacy of the sterilisation cycle, recommended by the French authorities, on an 18-minute programme at 134 °C.

Box of 250 tests.

BARCODE LABEL PRINTER - PAUT012N

- Thermal printer.
- Light and compact.
- High capacity and performance.
- Printer supplied with 4 label rolls.

LABELS - PAUT014N

(pack of 5 rolls of 300 labels)

STERILISATION

PURITY, AUTOMATIC DEMINERALISER - PAUT011N

High-quality water is essential to ensure effective sterilisation.
This device provides a continuous supply of demineralised water of consistent quality.

WATER DISTILLER - PDIS001

Because the quality of the water is key to sterilisation and ensures reliable autoclave operation, we sell a simple and economical water distiller.

- Produces 100% distilled water.
- Automatic cut-off.
- Easy maintenance.
- Economical.
- Free-standing.
- Lightweight device, easy to handle.
- Can be used to supply treatment unit spray reservoir.

Technical specifications:

- Production of distilled water, l/h: 0.57.
- Reservoir volume: 4 l.
- Dimensions in mm (dia. x H): 200 x 360.
- Power supply voltage: 230 V.
- Maximum power input: 580 W.
- Weight: 3.5 kg.

STERILISATION - 3 ESSENTIAL STEPS

TRACEABILITY

DID YOU KNOW? French ministerial circular No. 138 of 14 March 2001 states that "the traceability of actions, equipment and procedures for handling medical devices is compulsory [...]".

PACKAGING

DID YOU KNOW? The packaging stage prior to instrument sterilisation is essential for ensuring that the sterile state is maintained until next use with a patient.

MAINTENANCE

DID YOU KNOW? In article D665-5-1 of the French Public Health Code issued by decree No. 2001-1154 of 5 December 2001 - art.1 JORF of 7 December 2001, repealed by decree 2004-802 2004-07-29 art.4 JORF of 8 August 2004: "The operator is required to ensure the continuation of this performance and the maintenance of all medical devices. This obligation shall be verified by a quality control process defined by decree, the cost of which must be borne by the device operator."

SOAKING TANKS

SOAKING TANK, 3 L - P71D009

Large tank with perforated basket and integrated lid.

- Dimensions: length 35 cm, width 23 cm, height 12 cm.
- Basket dimensions: length 34 cm, width 22 cm, height 3 cm.

SOAKING TANK, 2 L - P71D026

SOAKING TANK, 1,25 L - P71D010

Practical to use and compact.

- Dimensions: length 26 cm, width 11 cm, height 8 cm.
- Basket dimensions: length 24 cm, width 9,5 cm, height 3 cm.

AUTOClave-COMPATIBLE BRUSH - P65BR001

For cleaning instruments.

SOAKING POT FOR BURS - P71D011

For soaking and draining burs.

ULTRASONIC CLEANER, - PBAC006

- Frequency of transducers: 42 kHz.
- Power output: 170 W.
- External dimensions: 340 x 255 x 225 mm.
- Supplied with basket and lid.

NEWSEAL PLUS HEAT SEALER

The Newseal Plus heat sealer is the easy way to seal bags before sterilisation.

- Automatically adjusted sealing from 12 mm.
- Retractable-blade cutter.
- Visual and audible sealing indicator.
- Roll holder.
- Pre-adjusted for wall mounting.

NEWSEAL PLUS HEAT SEALER - PTHE003N

FLAT STERILISATION SLEEVES (rolls sold singly)

RECTANGULAR ALUMINIUM BOXES

- For storing instruments for home visits.
- Sold singly.

Rectangular aluminium box 18 x 9 x 3 cm - P40B001

Perforated aluminium box, grey, 17 x 7 x 3 cm - P40B011

Aluminium blue box 18 x 9 x 3 cm - P40B012

ALUMINIUM TRAY

- 28.4 cm x 18.3 m. Height 1.7 cm.
- Designed to hold an instrument rack or podiatry tray, tray base of the same dimensions.
- Sold singly.

Aluminium tray - P40P001

ALUMINIUM INSTRUMENT RACK

- Designed to be placed inside the tray. Holds 17 instruments.
- Sold singly.

Aluminium instrument rack - P40P002

PODIATRY TRAY

- Single-use cover for aluminium tray, made of disposable plastic for faultless hygiene. Use a new cover for each patient.
- Sold in boxes of 400.

Podiatry tray - P40P003

BOTTLES

- 3 sizes of bottle: 60, 100, 250 cc, with red perforated cap.
- Sold singly.

60cc - 100cc - 250cc bottle - P40F003-04-05

WASH BOTTLES

- Made of flexible plastic for medical use, with curved nozzle.
- 2 sizes of wash bottle: 100 cc, 250 cc.
- Sold singly.

100cc wash bottle - P40F001

250cc wash bottle - P40F002

MICROMOTORS

PORTABLE MICROMOTOR WITH PODIATECH HANDPIECE - PMICPACK01

Light and compact. Ideal for home treatments. **LED display.**

- Electric motor with coiled cord.
- Compatible with type-E handpiece
- Reverse rotation function.
- 3-diode charging indicator light.
- Charging time 2 hrs 30 min.
- 5-hour battery life (depending on use).
- 12-month parts and labour warranty (does not include wearing parts).
- Supplied with charger, table rest and pedal.
- Sold with one PODIATECH handpiece.

Technical specifications:

- Rotation speed: 1,000 to 30,000 rpm.
- Weight: 360 g.
- Lithium batteries.
- Dimensions in mm: 132 x 67 x 30.

NSK VIVA MATE G5 PORTABLE MICROMOTOR + NSK EX6B HANDPIECE - PMIC025

Portable LED micromotor ideal for use both at the practice and in the home.

- Compact micromotor.
- LED light with ON/OFF switch.
- Clockwise/ anticlockwise rotation.
- Precise speed adjustment (speed display).
- Current overload protection.
- On/off switch.

- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Dimensions in mm: L72 x D180 x H36.
- Weight: 370 g.

NSK

TABLE-TOP MICROMOTOR AND HANDPIECE - PMIC010

Compact and easy to use. This complete set is the ideal product for both practice and home treatments.

- Light motor unit.
- Self-ventilated electric motor with straight cord.
- Maximum speed 30,000 rpm.
- Type-E end.
- Handpiece without spray included.
- ON/OFF pedal included.
- 12-month parts and labour warranty (does not include wearing parts).

NSK VOLVERE I7 TABLE-TOP MICROMOTOR WITHOUT HANDPIECE - PMIC026

This carbon brush micromotor is very efficient, compact, smart and easy to use.

- Light and compact.
- Quiet operation.
- Speed stabiliser function.
- High-precision.
- Overheating alarm system.
- Variable control pedal.
- Microprocessor control.
- 12-month parts and labour warranty (does not include wearing parts).

Technical specifications:

- Dimensions in mm: L69 x D185 x H167.
- Weight: 930 g.

NSK

OPUS PREMIUM TABLE-TOP MICROMOTOR WITH SUCTION PUMP - PMIC016

Table-top micromotor with integrated suction pump. 3 rotation speed memories. Ideal for mobile treatments or as a back-up motor in the practice.

- One-piece motor with integrated contactor.
- Rotation speed: 2,000 to 30,000 rpm.
- Reverse rotation function.
- Energy-saving mode for suction pump (power capped at 60%).
- Touch-sensitive controls
- Digital display of different functions.
- Integrated front motor stand.
- Counter for maintenance operations.
- Weight: 4 kg
- Dimensions (h x l x d) in cm: 12.5 x 32 x 22.
- 12-month parts and labour warranty (does not include wearing parts).

SUCTION BAG, SOLD SINGLY - PMIC019

MICROMOTORS - CASES - HYGIENE - BOXES

OCTOPUS PREMIUM TABLE-TOP MICROMOTOR WITH SPRAY - PMIC018

Table-top micromotor with spray. Ideal for mobile treatments or as a back-up motor.
Choice of 3 working techniques: Spray, Dry with forced air and Dry without air.

- One-piece induction motor with integrated contactor.
- Rotation speed: 5,000 to 40,000 rpm.
- Reverse rotation function.
- 4 motor speed programme memories.
- Touch-sensitive controls
- Adjustable spray mist setting.
- Instant bur attachment.
- Digital display of different functions.
- Integrated front motor stand.
- Weight: 3 kg
- Dimensions (hxlxd) in cm: 13.6 x 26 x 17.

OCTOPUS OR OPUS ON/OFF PEDAL PMIC021

CASES

PODIATECH GREY/TURQUOISE CASE - BACKPACK - P40V002

- Length: 44 cm.
- Width: 36 cm.

BLACK TROLLEY CASE - P40V003

- Length: 50 cm.
- Width: 30 cm.
- Height: 30 cm.
- Modular pockets with Velcro separator.

BOXES AND STORAGE

STAINLESS-STEEL STAND FOR PM + FG BURS WITH INTEGRATED LID - P63N001

- Autoclave-compatible.
- 6 holes.

Pointed-tip scissors - P65C002

SLIM POINTED-TIP SCISSORS, STRAIGHT

Available in stainless steel, 10 cm, for cutting orthoplastic devices. **Sold singly.**

Slim pointed-tip scissors, straight - P65C003

SLIM POINTED-TIP SCISSORS, CURVED

Available in stainless steel, 10 cm, for cutting and sculpting orthoplastic devices. **Sold singly.**

Slim pointed-tip scissors, curved - P65C004

EXCAVATOR CURETTE, 15 CM

Excavator curette, 15 cm - P65EX002

STAINLESS-STEEL RIFFLER FILE, 20 CM

Stainless-steel riffler file, 20 cm - P42R010

ZIRCONIUM BURS (ZrN – zirconium nitride)

Hard and long-lasting - quiet grinding - reduced heat generation

BLUE RING, standard crisscross flutes for filing normal nails. **GREEN RING**, coarse crisscross flutes for filing thick nails and calluses. **RED RING**, fine crisscross flutes for filing and finishing thin nails. **BLACK RING**, very coarse crisscross flutes for filing very thick nails and thick calluses.

CERAMIC BURS

These special high-performance ceramic burs weigh up to 25% less than tungsten carbide burs and have a more pleasant and gentler feel. Because ceramic materials are biocompatible, they are suitable for use with patients with a severe allergy to metal.

	K10 Crisscross flute, medium grit.		K51 Crisscross flutes, coarse grit for bigger jobs.		K75 Plain cross-cutting flutes: for the biggest jobs.

'SPECIAL' TUNGSTEN CARBIDE BURS

SPIRAL FLUTES: the geometry of the longitudinal and cross-cutting blades optimises the abrasion action in line with the force and pressure exerted. Ergonomically shaped. Leave a smooth, unmarked surface. This special design also prevents the flutes from clogging.

TRIPLE PURPLE RING, super-fine spiral flutes: for polishing and grinding thin nails.

PURPLE RING, fine spiral flutes: for filing normal nails.

TRIPLE GREEN RING, plain cross-cutting flutes: for filing thick nails.

BUR TESTER

Used to check that burs are completely concentric (an off-centre bur can cause irreversible damage to the handpiece and micromotor).

Bur tester - P63N007

STAINLESS-STEEL STAND FOR PM + FG BURS WITH INTEGRATED LID AUTOCLAVE-COMPATIBLE - 6 HOLES

Stainless-steel stand for PM + FG burs with integrated lid - autoclave-compatible - 6 holes
P63N001

PLASTIC STAND FOR PM BURS, NOT AUTOCLAVE-COMPATIBLE + LID, 6 HOLES

Plastic stand for PM burs, not autoclave-compatible + lid, 6 holes - P63N002 + P63N004

SOAKING POT FOR BURS

With perforated bottom, for soaking and draining burs.

Soaking pot for burs - P71D011

BUR HOLDER

Bur holder with transparent lid for mixed use (for burs, handpieces and turbines). Autoclave-compatible base. Without lid.

Bur holder for mixed use x 12 / (L x W x H)
60 mm x 48 mm x 33 mm - P40P004

Bur holder for mixed use x 36 / (L x W x H)
60 mm x 48 mm x 33 mm - P40P005

SPECIALISED CLEANING PRODUCT - DENTASEPT ROTARY DETERGENT, 2 L

Ready-to-use detergent and disinfectant solution for cleaning burs and endodontic instruments before sterilisation.

Dentasept rotary detergent, 2 l - P71D032

BANDAGES/BAND-AIDS AND PROTECTION

DIGITAL PAD

- Sold in boxes of 6.
- Elastic tube with circular cushion of polymer gel.
- Protects corns from pressure and friction.

Small (S) for the little toe

Medium (M) for the middle toes - P45P004-05-06

Large (L) for the big toe

DIGITAL TUBE

- Length: 15 cm.
- Sold in boxes of 2 tubes.
- Elastic tube fully lined with polymer gel.
- Protects the whole toe. Cut to the required length.

Small (S) for the little toe

Medium (M) for the middle toes - P45P007-08-09

Large (L) for the big toe

DIGITAL STRIP

- Available in 3 sizes: Small, Medium and Large. Length: 71 cm.
- Sold singly.
- Thick gel for additional protection. Relieves pressure on the top, underside or side of the toe. Cut to the required length.

Small (S) for the little toe

Medium (M) for the middle toes - P45P010-11-12

Large (L) for the big toe

TUBOPROTE

- Sold in bags of 12 tubes.

Tuboprote No. 1: 15 mm diameter - P45P013

Tuboprote No. 2: 18 mm diameter - P45P014

Tuboprote No. 3: 21 mm diameter - P45P015

Tuboprote No. 4: 25 mm diameter - P45P016

FLEECY WEB

- Adhesive fabric with 2mm fleece lining.
- 100% cotton, hypoallergenic.
- Permeable.
- Pack of 4 sheets, 22.5 x 40 cm.
- Protection and cushioning. Cut to the required shape and size.

Fleecy web - P45P001

Fleecy web extra - P45P029

MOLESKIN

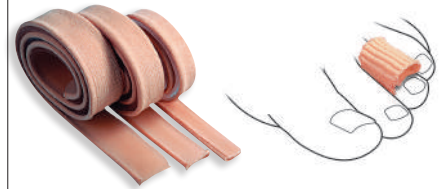

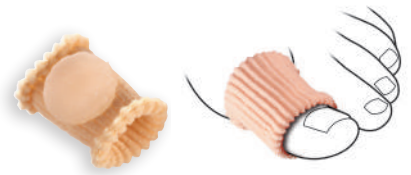

- Extra-thin 1mm adhesive fabric.
- 100% cotton.
- Permeable, prevents soaking.
- Roll, 23 cm x 0.70 m.
- Protects inflamed areas.

Moleskin - P45P002

FLEECY FOAM

- 5mm laminated polyester felt with polyurethane cellular foam.
- Resumes initial thickness immediately after compression.
- Permeable.
- Pack of 4 sheets, 22.5 x 40 cm.

Fleecy Foam - P45P003

BANDAGES/BAND-AIDS AND PROTECTION

BANDAGES/BAND-AIDS

COVERMED

Boxes sold singly.

Roll, 5 m x 6 cm, wide - P44P002

Roll, 5 m x 8 cm, wide - P44P011

HYPAFIX

Boxes sold singly.

Roll, 5 m x 2.5 cm wide - P44P008

Roll, 5 m x 5 cm wide - P44P003

Roll, 2 m x 10 cm wide - P44P004

Roll, 10 m x 5 cm wide - Transparent - P44P010

TENSOPLAST

Boxes sold singly.

Roll, 2.5 m x 3 cm wide - P44P005

Roll, 2.5 m x 6 cm wide - P44P009

COTTON WOOL

Cotton wool balls - Sold in packs of 700 balls

P44C001

Cotton wool squares - Sold in packs of 500

squares - P44C002

COTTON WOOL DISPENSER

- Diameter 10 cm.

- Height 10 cm

- Sold singly.

Cotton wool dispenser without spring - P40B002

COMPRESSES

- Sterile nonwoven compresses, 5 x 5 cm.

Sold in boxes of 50 packs of 5 compresses - P44P006

- Non-sterile nonwoven compresses.

Sold in packs of 100 compresses, 5 x 5 cm

P44P012

Sold in packs of 100 compresses, 7.5 x 7.5 cm

P44P013

GAUZE

- Tubular gauze No.1.5, particularly recommended for toe bandages.

- Diameter 19 mm.

- Boxes sold singly.

20m roll - P44P007

ACCESSORIES

RASPS

FOOT RASP

- 2 abrasive sides, coarse grit and fine grit.
- Sold singly.

Colours: green - white - blue - purple - P42R005-4-6-7

AUTOCLAVE-COMPATIBLE RASP

- Autoclave-compatible and sterilisable stainless-steel rasp.
- Sold singly.

Autoclave-compatible rasp - P42R011

ABRASIVE STRIPS FOR AUTOCLAVE-COMPATIBLE RASP

- Sold in packs of 10.

Coarse-grit - P42R012

Fine-grit - P42R014

HANDLE FOR ABRASIVE STRIP

- Sold singly.

Handle for abrasive strip - P42R003

ABRASIVE STRIPS

- Sold in packs of 25 strips.

Coarse-grit / fine-grit abrasive strips - P42R001-02

RECTANGULAR ALUMINIUM BOXES

- For storing instruments for home visits.
- Sold singly.

Rectangular aluminium box 18 x 9 x 3 cm - P40B001

Perforated aluminium box, grey, 17 x 7 x 3 cm - P40B011

Aluminium blue box 18 x 9 x 3 cm - P40B012

ALUMINIUM TRAY

- 28.4 cm x 18.3 m. Height 1.7 cm.
- Designed to hold an instrument rack or podiatry tray, tray base of the same dimensions.
- Sold singly.

Aluminium tray - P40P001

ALUMINIUM INSTRUMENT RACK

- Designed to be placed inside the tray. Holds 17 instruments.
- Sold singly.

Aluminium instrument rack - P40P002

PODIATRY TRAY

- Single-use cover for aluminium tray, made of disposable plastic for faultless hygiene.
- Use a new cover for each patient.
- Sold in boxes of 400.

Podiatry tray - P40P003

BOTTLES

- 3 sizes of bottle: 60, 100, 250 cc, with red perforated cap.
- Sold singly.

60cc - 100cc - 250cc bottle - P40F003-04-05

WASH BOTTLES

- Made of flexible plastic for medical use, with curved nozzle.
- 2 sizes of wash bottle: 100 cc, 250 cc.
- Sold singly.

100cc wash bottle - P40F001

250cc wash bottle - P40F002

Because you are a healthcare professional and your patients are your main concern, our Protection & Hygiene range meets all your different needs.

MASKS

SURGICAL MASKS

- 3-ply healthcare mask, type II.
- Sold in boxes of 50 masks.

3-ply healthcare mask - SIMKALTOG_001

FFP2 MASK

- Sold in packs of 10 masks.

FFP2 mask - SIMKALTOG_024

AMBIDEXTROUS EXAMINATION GLOVES

- Meet European standards: CE.
- Sold in boxes of 100.

POWDERED LATEX EXAMINATION GLOVES

Examination gloves, sizes 5/6 - 6/7 - 7/8 - 8/9 - 9/10 - P43G000-01 to -04

NON-POWDERED LATEX EXAMINATION GLOVES, BLUE

Examination gloves, sizes XS = 5 / S = 6 / M = 7 / L = 8 - P43G009-10 to 12

NON-POWDERED NITRILE EXAMINATION GLOVES, BLUE

Examination gloves, sizes 5/6 - 6/7 - 7/8 - 8/9 - 9/10 - P43G004A-05 to 08

PAPER LINER

PAPER LINER

- 2-ply paper liner for medical examinations, white tissue web, protects surfaces during clinical examination or to cover patient chair leg rests.
- Roll of 150 sheets.
- Rolls sold singly.

Paper liner / Width 50 cm, pre-cut every 35 cm - P43D001

LAMINATED PAPER LINER.

- Packaging: 6 rolls. 1 roll = 132 standard-size sheets, blue, laminated, embossed, glued.

Laminated paper liner / Width 50 cm, pre-cut every 38 cm \pm 5% - P43D003

SOCIAL DISTANCING FLOOR STICKERS

ROUND STICKER, DIAMETER 250 MM

Round social distancing sticker - SIMKALTOG_002

ADHESIVE STRIP

Adhesive strip 1000x80mm - SIMKALTOG_003

SOCIAL DISTANCING STICKER KIT

- 3 adhesive strips + 3 round stickers

Sticker kit - SIMKALTOG_010

ZAPP PURIFICATEUR D'AIR UV-C

- Compact (can be mounted on wall or ceiling)
- Supplied with 8,000-hour bulb. Requires no maintenance.
- Active disinfection area: 15 m²

ZAPP 18 - PPUR006

FOR HANDS AND SURFACES

HYDROALCOHOLIC GEL

Alcohol-based gel for hygienic treatment and disinfection of the hands by rubbing.

Aniosgel 85 NPC, 500 ml + pump - P71D017

Aniosgel 85 NPC, 1 l, airless bottle - P71D013

Wall-mounted holder for 1 l Aniosgel airless bottle - P71D014

FREQUENT-USE GENTLE SOAP

- Contains vitamin F and glycerine. For frequent hand washing.
- Maintains the skin's natural balance.

Frequent-use gentle soap with pump, 500 ml - P71D004

Frequent-use gentle soap, 1l bottle + pump - P71D005

MANUCLEAR SOAP

Effectively combats hand-borne infection. Kind to hands, protects the skin.

Manuclear soap with pump, 500 ml - P71D036

PAPER HAND TOWELS

PAPER HAND TOWEL DISPENSER

- Dispenser holds 200 x 2-ply paper hand towels.
- 42.5 x 29 cm.

Paper hand towel dispenser - P43E001

PACK OF PAPER HAND TOWELS

- 2-ply paper hand towels.
- Pack of 150.

Pack of paper hand towels - P43E002

INSTRUMENTS

PRE-DISINFECTION - ANIOSYME X3

- For cleaning and pre-disinfecting instruments in an ultrasonic cleaner or soaking tank.
- Bactericidal, acts on BK virus, Candida albicans, HIV.1 virus, hepatitis B and C.
- Concentrated: dilute to use (soaking time: 5 minutes). Rinse with water.
- Replace daily.

Aniosyme X3 1l with 25 ml integrated doser - P70PI005

1 l of concentrated product = 200 l of diluted product

Aniosyme X3 5l with 25 ml doser - P70PI006

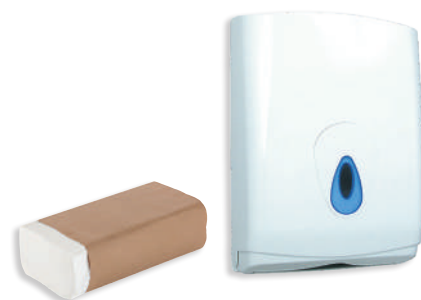

1 l of concentrated product = 200 l of diluted product

DISINFECTION - STERANIOS 2%

- For disinfecting instruments in a soaking tank. Ready to use.
- Bactericidal, acts on BK virus, Candida albicans, HIV.1 virus, hepatitis B and C.
- Soaking time: 20 minutes. Rinse with water.
- Use for up to 7 days

Sterianos 2%, 2l bottle - P71D001

Sterianos 2%, 5l bottle - P71D012

RENOVATOR - STAINLESS-STEEL RENOVATOR

- Product developed specifically to renovate stainless-steel instrument and medical devices.
- Removes all traces of proteins, iron oxide deposits and other oxidation stains.
- Dilute to 0.5% to 5% depending on the instrument and soaking time. 5 ml to 50 ml of concentrated product = 1 l of diluted product.

Anios R444 stainless-steel renovator - P71D028

QUICK WIPES

- Wipes impregnated with a cleansing and disinfectant solution for cleaning medical devices between patients (rotary instruments, etc.).
- Box of 120 wipes.

Quick Wipes - P71D006

FLOORS AND SURFACES

SURFANIOS PREMIUM - 1L

- For cleaning and disinfecting floors and walls – no rinsing required.
- Concentrated solution: dilute to use. 1l bottle with doser. To be diluted to 0.25%: 20 ml of concentrated product = 8 l of diluted product.

Surfanios Premium 1l - P71D021

SURFA'SAFE PREMIUM COMPACT 750 ML

- Compact detergent foam for cleaning and disinfecting surfaces.
- For use on patient chair covers and practitioner chairs.

Surfa'safe Premium compact - Spray, 750 ml - P71D019

SURFA'SAFE R PREMIUM 750 ML

- Compact detergent foam with citrus fragrance for cleaning and disinfecting surfaces.

Surfa'safe R Premium - Spray, 750 ml - P71D020

WIP ANIOS EXCEL WIPES, 50 WIPES

- Multi-surface wipes impregnated with a detergent and disinfectant solution for cleaning the exterior of all kinds of equipment.
- Formulated without alcohol.

WIP Anios Excel wipes. Box of 50 wipes - P71D018

TNS INOX PREMIUM, 750ML BOTTLE - P71D025

TNS Inox Premium stainless-steel cleaner, 750ml bottle - P71D025

SUN WAY ODOUR-DESTROYER - 750 ML

- Destroys unpleasant odours and gives all your surfaces and your premises a pleasant fragrance.
- Fruity fragrance.

Sun Way odour-destroyer - spray, 750 ml - P71D024

MULTI-PURPOSE CLEANER

FLASH GERM' MULTI-PURPOSE CLEANER

- Multi-purpose disinfectant, detergent and degreaser. Cleans and disinfects in a single application.
- Alcohol- and perfume-free.
- Active ingredients 100% plant-based.

Flash Germ' Multi-purpose cleaner - Spray, 750 ml - P71D035

SMALL APPLIANCE

ORTHONYXIA - ONYCHOPLASTY

CENTRAL CLIP SYSTEM

Ovoid clips of different lengths for corrective nail treatments.

- Box of 10 clips of the same size.

No.16: 17 mm - P79C018

No.18: 19 mm - P79C019

No.20: 21 mm - P79C020

No.22: 23 mm - P79C021

LATERAL CLIP SYSTEM

Clips for providing lateral traction on one side of the nail.

- Box of 10 clips of the same size.

No.18: 19 mm - P79C022

No.20: 21 mm - P79C023

No.22: 23 mm - P79C024

GLUE FOR CLIP SYSTEM

Glue for affixing nail clips.

- 5g bottle.

Glue for clip system - P79C025

BACQUART CLIP

Bacquart clip: 10 x 0.5 cm, th.: 0.30 mm, titanium wire 0.12 mm - P79C026

Bacquart clip: 10 x 0.5 cm, th.: 0.30 mm, titanium wire 0.14 mm - P79C029

SEMI-HARD WIRE

Stainless-steel wire, 6/10ths, for making staples.

- Cut to the required length.

- 10m roll.

Semi-hard wire, 6/10ths - P79C014

TWEED PLIERS

Stainless-steel tweed pliers, 14 cm, for making u-shaped and omega-shaped clips.

Tweed pliers, 14 cm - P79I001

WIRE-BENDING PLIERS

Stainless-steel pliers for making lateral retention hooks.

Wire-bending pliers - P79I002

MATHIEU NEEDLE HOLDER

Stainless-steel Mathieu needle-holder, 14 cm, for rounding off ends.

Mathieu needle-holder, 14 cm - P79I003

CEMENT SPATULA

Flexible stainless-steel cement spatula, 16 cm, for applying retention cement and composite cement.

Cement spatula, XL, extra-flexible - P79I004

GLASS

Open glass

Open glass - P40G001

PHOTOPOLYMERISATION LAMP - POD ULTRA LIGHT®

Wireless hands-free lamp for photopolymerising nail resins for fast, long-lasting affixing of devices used in orthonyxia and onychoplasty.

- High-density LED, ultra-lightweight: 900 g.
- Pedal-operated automatic timer (10, 25 or 60 sec.).
- Integrated battery and polycarbonate UV filter.
- Supplied in box for home treatments.
- Box dimensions: width 11 cm - depth 20 cm - height 4.5 cm.
- Made in France.

Pod Ultra Light - PEC1007

ORTHONYXIA STARTER KIT

Comprising: 1 PODOPRIMER bonding agent + 1 PODOCOMP D hard resin + 1 bonding agent spatula with pack of 50 brushes + 1 titanium wire in 3 diameters + 1 instrument A + 1 storage box.

Orthonyxia starter kit - P79PACKORTHONYXIE

ORTHONYXIA EXPERT KIT

Comprising: 1 PODOPRIMER bonding agent + PODOCOMP D + PODOCOMP F + PODOCOMP L resins + 1 brush handle + bags of brushes + tunnellers + 1 pair Adson tweezers + 1 titanium wire in 3 diameters + 1 instrument A + 1 instrument B + 1 resin toenail + 1 storage box.

Orthonyxia expert kit - P79PACKONEXPERT

PODOCOMP DRY

Degreaser. For use on the nail in orthonyxia and onychoplasty treatments.

Podocomp Dry - P79C028

PODOPRIMER (BONDING AGENT)

Bonding agent with non-allergenic interface essential for resin applications.

Photopolymerisable liquid composite bonding agent for podiatric use, essential for application of all resins to the nail (PODOCOMP D – PODOCOMP F – PODOCOMP L)

Podoprimer, 5 ml - P79C001

PODOCOMP

PODOCOMP D: transparent (hard) resin paste for pins and onychoplasty treatments.

Photopolymerisable composite paste specially developed for all types of orthonyxia treatments. Transparent paste that enables the practitioner to see the titanium in the sliding pin tunnel.

In onychoplasty treatments, it provides a view of the nail bed.

PODOCOMP F: transparent (soft) resin paste for packing and onychoplasty treatments (nail reconstruction).

Photopolymerisable soft transparent composite resin specially designed for slightly flexible onychoplasty treatments that are resistant to microtraumas (sports and others) and neutral and impermeable peri- and subungual packing and drainage.

PODOCOMP L: transparent (hard) liquid resin for pins and onychoplasty treatments.

Podocomp D 5 g - P79C002

Podocomp F 5 g - P79C003

Podocomp L 2 ml - P79C004

TITANIUM WIRE

- Titanium wire, 0.12 / 0.14 / 0.16, for use in orthonyxia treatments.
- Cut to the required length.
- 20cm length in bag.

Titanium wire, 0.12 - P79C007

Titanium wire, 0.14 - P79C008

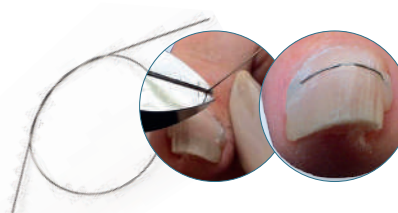

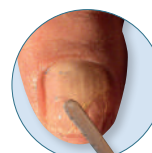

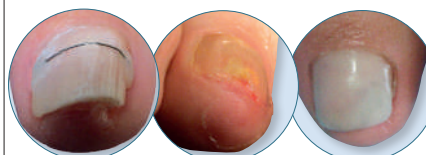

Titanium wire, 0.16 - P79C009

D 5 g

F 5 g

L 2 ml

ORTHONYXIA - ONYCHOPLASTY

BONDING SPATULA / BRUSH HANDLE

Sterilisable brush handle for applying bonding agent.

Used for applying bonding agent (PODOPRIMER) to the nail.

This instrument comprises a very strong high-quality plastic handle that is sterilisable.

- Bag of single-use brushes, sold separately.

Bonding agent spatula - P79C005

Bag of 50 brushes - P79C006

TUNNELLER

System for quickly and easily creating the tunnel for the sliding pin.

- Sold in packs of 10 units.

Tunneller (bag of 10) - P79C010

INSTRUMENT REF A

Sterilisable stainless-steel instrument for holding the titanium wire on to the nail.

The spatula end is used to take resin from the syringe and place it on the nail.

The angled notched end is used to hold the titanium wire in place during photopolymerisation.

Instrument ref. A - P79C011

INSTRUMENT REF B

Sterilisable stainless-steel instrument for holding the pin or clips in place.

The spatula end is used to take resin from the syringe and place it on the nail.

The end with the hollowed-out area is used to hold the previously made pin firmly in place during photopolymerisation.

Instrument ref. B - P79C012

DEMONSTRATION TOENAIL

Resin toe for demonstrating devices and for training.

Demonstration toenail - P79C013

ADSON TWEEZERS

- Available in stainless steel, 12 cm, grooved jaws, for use with titanium wire.

- Sold singly.

Adson tweezers - P61PR004

TITANIUM WIRE CUTTERS

Wire cutters with oblique blades, 14 cm.

Titanium wire cutters - P79I005

BUR KIT FOR ORTHONYXIA TREATMENTS

Plastic bur stand with cover for 12 burs (not autoclave-compatible)

+ standard diamond bur, round cone, standard grit 850.104 Ø 0.14

+ standard diamond bur, round cone, standard grit 856.104 Ø 0.16

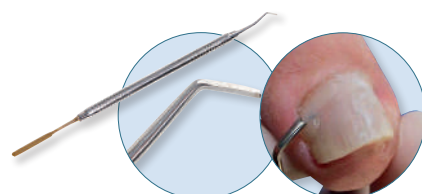

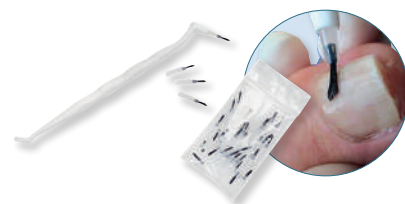

+ special tungsten carbide bur, 5610 Ø 0.45 (blue ring)

+ special buffing bur, Ø 055 0669HP, grey colour, grinding for onychoplasty treatments

+ special buffing bur, EDENTA Ø 055 0659HP, yellow colour, fine smoothing for onychoplasty treatments

+ special buffing bur, EDENTA Ø RM 66 1025 HP, pink colour, for smoothing pins in orthonyxia treatments.

Bur kit for orthonyxia treatments - P63KITORTHONYXIE

NIGHT SPLINTS FOR HALLUX VALGUS

NIGHT SPLINT KITS FOR HALLUX VALGUS

Kits are available for every foot type and size (from 35-36 to 45-46).
High-quality pre-cut materials.
Products and protocols developed with several state-qualified podiatrist consultants.
Training available on request, depending on dates and availability (contact us).

Night splint kit for 1 foot, right or left - P45CCONTNOCT

PROCEDURE (Contact us for details of the splinting procedure)

Watch the splinting protocol video.

HALLUX VALGUS CORRECTOR

Foam-covered progressive corrector. Particularly suitable for post-operative treatments.
1 pair: 1 right foot + 1 left foot, one size.

Hallux valgus corrector (one pair) - P45C001

DOKI TAPE - ROLLS

Specialised application of DOKI TAPE can help tissues adapt and provide a response to various changes:

1. Decompression.
2. Relaxation of tissue next to pain receptors.
3. Decongestion of the underlying spaces.
4. Relaxation and normalisation of tissue.
5. Muscle toning and dynamisation.

A permanent decompressant

In contrast to conventional correction techniques that compress the tissues, this tape uses traction to expand previously infiltrated subcutaneous spacing reduced by infiltrates and the tension caused by dysfunctions.

By relaxing the tissue and forming cutaneous and subcutaneous microdepressions, it promotes a return to normal fluid exchanges.

Roll, 5 m x 5 cm wide Black - Blue - Pink
P45P020 _21_22

ORTHOPLASTY

The leading products for use in all types of orthoplasty treatments. Suitable for use with infants and at-risk patients.

• PROTECTIVE • CORRECTIVE • THIN • HARDWEARING • COMFORTABLE

J3M **SILIPOD** - 3 hardnesses: Shores 5 - 20 - 35, beige.

SILIPOD; mix together the two parts in equal quantities:

- 50% Base paste (B) 5 (extra-soft) or 20 (soft) or 35 (firm)
- 50% Catalysing paste (C).

The Shore 3 hardnesses of the **SILIPOD** range can be used together to make inclusions, excess load protection and repairs.

CINIER B **PODORSIL** - 3 hardnesses: Shores 20 - 30 - 45, beige.

PODORSIL 3P; mix together the two parts in equal quantities:

- 50% paste: B20 (soft) or B45 (firm) or B20 + B45 (medium)
- 50% Catalysing paste (A).

PODORSIL 30; mix together the two parts in equal quantities:

- 50% B30 paste (medium).
- 50% Catalysing paste (A).

PODORSIL 3P

3P A catalyst, 500 g - P08PODOR3PA-50

3P A catalyst, 250 g - P08PODOR3PA-25

3P A catalyst, 125 g - P08PODOR3PA-12

3P B20 soft part, 250 g - P08PODOR3PB2-25

3P B20 soft part, 125 g - P08PODOR3PB2-12

3P B45 firm part, 250 g - P08PODOR3PB4-25

3P B45 firm part, 125 g - P08PODOR3PB4-12

PODORSIL 30 (MEDIUM HARDNESS, SOLD AS A KIT, A+B)

Kit: Podorsil 30 A+B, 2 x 300g pots - P08PODOR30AB

HARDNESS 30
developed
EXCLUSIVELY
for **PODIATECH**

SILIPOD 5 PROTECSIL

Extra-soft viscosity, Shore 5. Suitable for orthoplastic devices designed for protection and comfort and recommended for at-risk patients (diabetes, arthritis, etc.) and inclusions.

Silipod 5 Protecsil - 2 x 250 g - P08SILIPOD5

SILIPOD 20

Soft viscosity, Shore 20. Extremely useful for protective and comfort orthoplastic devices and minor correction.

Silipod 20 - 2 x 250 g - P08SILIPOD20

SILIPOD 35

Firm viscosity, Shore 35. For orthoplastic devices designed for correction and light protection.

Silipod 35 - 2 x 250 g - P08SILIPOD35

ULTRA-FINE MESH ORTHOPLASTY INJECTION AND REPAIRS

SILITRAM

Nonwoven synthetic fabric mesh with low elasticity for ultra-fine and very resistant mesh orthoplasty treatments.

- Length 1 m.
- Width 8 cm.

SILITRAM - P08SILIPODTRAM

SILIROLL

Ergonomic roll designed especially for mesh orthoplasty treatments.

- Width 10 cm.

SILIROLL - P08SILIPODROL

SILIPOD REP - DOUBLE-CARTRIDGE SYRINGE, 40 G (A+B) FOR REPAIRING ORTHOPLASTY TREATMENTS

Fluid silicone that acts like a glue, very useful for repairs, adding material to and finishing all types of orthoplasty treatments.

Grinding is possible after catalysing (reticulation) for 5 min.

Can be mixed with and sticks to all the other silicones in the range as well as other brands.

SILIPOD REP - P08SILIPODREP

SILINJECT

Syringe for injecting all types of silicone in injected orthoplasty treatments under load on a podoscope (cold sterilisable).

SILINJECT - P08SILIPODINJ

PACK OF ORTHOPLASTY BURS

Plastic bur stand with cover for 12 burs (not autoclave-compatible)

- + special tungsten carbide bur, 5510 Ø 0.60 - For grinding hollowed-out area
- + special buffing bur, EDENTA Ø 055.0666HP - for finishing buffing of silicones
- + special bur in the shape of an abrasive disc for finishing grinding: fine
- + support bur - Diameter 0.5 - for finishing grinding: rough work
- + support bur - Diameter 0.7 - for finishing grinding: rough work
- + support bur - Diameter 10 - for finishing grinding: rough work
- + abrasive tip - Diameter 0.5
- + abrasive tip - Diameter 0.7
- + abrasive tip - Diameter 10.

Pack of orthoplasty burs - P63KITORTHOPLASTIE

CAF ADHESIVE

CAF adhesive, 100 g - P08COLLECAF

ORTHOPLASTY BOXES

Pack of 10 green boxes - P40B006

Pack of 10 white boxes - P40B004

Pack of 10 blue boxes - P40B005
