Concept 3Feet[®] MOTION

Designed for foot care professionals only, the 3Feet[®] Motion concept was developed in France.

Each type of foot has different needs and characteristics (support, comfort and stability), the construction of these insoles is adapted to three arch types.

Today, the 3Feet[®] concept represents over 600,000 pairs sold every year in over 50 countries.

P243FMOTION23
